SALARY CUTS URGED UPON CITY COUNCIL

Recommendation To Trim Payroll Is Laid On Table

A reduction of approximately ten per cent in the salaries of all city officers effective April 1, was suggested to the city council last evening in a resolution which was presented by Commissioner H. A. Brooks, but which was tabled for further action. The resolution came as a complete surprise to the entire council and was as follows:

Resolution for the reduction of salaries and compensation of various officers and certain employees, all of the city of Dixon, Illinois.

Whereas, the long and continued depression existing in the United States, State of Illinois and City of Dixon, which has reduced the ability of the taxpayers of the city of Dixon to pay their taxes, and it is a matter of general knowledge that many owners of homes are and will be unable to pay their taxes and

Whereas, the depression has resulted in throwing out of employment many laborers in the city of Dixon, the closing down of factories and the reduction of wages to the minimum, in most cases far below a living wage, and

Whereas, there is no indication of any relief from the depression, but on the contrary, conditions are constantly growing more intense and distressing, and

Whereas, there is a general movement in many cities of the state of Illinois and in many states of the United States in which drastic measures are advocated and some put in effect to reduce taxation by cutting down the expense of state, counties and cities by the reduction of salaries and compensations of officials and employees.

Therefore, be it resolved, that the salaries of commissioners and mayor of the city of Dixon, Illinois, be reduced ten per cent, and

Be it further resolved, that the police salaries be reduced \$10.00 per month for each of the policemen and \$15.00 per month for Chief of Police and that the salary of the firemen be reduced \$10.00 per month and the Fire Chief \$15.00 per month and that the salary of the City Clerk be reduced \$300 per year, and that the compensation of the assistant city clerk be reduced \$150 per year and that the compensation of the Street Commissioner be reduced \$10 per month and that the salary of the Superintendent of the Cemetery be reduced \$10 per month, and

Be it further resolved that all of said reductions continue one year from April 1, 1932, to April 1, 1933.

Defended Action. In discussion of his resolution, Commissioner Brooks said:

"There is a general bad disposition toward taxation and the officers who levy these taxes. Real estate taxes have tripled within the past ten years. I can duplicate the present police department with the

Some Oddities In Wire News Today From Various Parts

UNHAPPY ENDING

Chicago, April 6—(AP)—Just another of life's vagaries: Earl Dufrane of Hammond, Ind., struck Miss Josephine Kroll, a Chicago stenographer, with his motorboat in Hudson Lake near New Carlisle, Ind., two years ago. He jumped in, and saved her although he nearly lost his life in the attempt.

Did she marry him? She did not. She sued him for \$10,000 damages yesterday.

PAT AND MIKE LOSE

Evansville, Ind., April 6—(AP)—Both Pat and Mike got kicked out of the city council yesterday.

This happened because Miss Daisy Sandridge was elected to fill a short term as a member of the council, thereby becoming Evansville's first "city mother."

She ran on an anti-Pat and Mike story platform, defeating Justice of the Peace John Russ, 1,595 to 1,369.

Miss Sandridge argued that stories of the Pat and Mike type might be all right in some places but that they had no place in the city hall, when the aldermen meet behind closed doors.

She said she'd put a stop to the practice.

LOST BY A NOSE

Chicago, April 6—(AP)—Police Sergeant Thomas Harrison just followed his nose and thereby helped to solve a great mystery.

He smelled burning leather yesterday. Going into a basement from which the odor apparently came he found Charles Poske shoveling into a furnace a lot of new shoes, each of which was for the right foot.

The mystery persisted, however, until David Lipshutz, a salesman for a Milwaukee shoe factory, identified the remaining shoes as some of the 350 samples stolen from his car Monday night.

Poske protested his innocence, saying someone had left the shoes with him with instructions to destroy them. He was locked up, nevertheless.

ALL MIXED UP

Evansville, Ind., April 6—(AP)—Romance called to 79-year-old Justice of the Peace Samuel Harrison last night and he answered by going to a wrestling match.

Thus he failed to catch a glimpse of the 22-year-old red-headed woman with whom he had a "blind date" and his matrimonial plans were as much of a puzzle as they were the day he announced he wouldn't mind getting married if he could find the right girl.

Justice Harrison didn't get to see his red-haired woman because things got all mixed up. His clerk made dates for him not only with the one of titian locks, but also with two other women, setting the time for all three at 8 P. M. So the Justice solved the problem by watching the wrestlers wrestle.

"I can't afford to miss a good wrestling match," he said, "not even for a courting bee."

The Justice has received about 300 letters from would-be Leap-Year brides, but frankly he is disappointed, because they don't seem to be romantic enough. "I suspect," he said, "the good ladies are more interested in a meal ticket than in romance."

WEATHER

THE FACT THAT A BOOK IS THICK IS NOT NECESSARILY A REFLECTION ON THE AUTHOR!

WEDNESDAY APRIL 6

By Associated Press

Chicago and Vicinity—Showers tonight and probably Thursday morning. Warmer tonight with lowest temperature about 54; somewhat cooler Thursday afternoon; fresh southerly winds, shifting to north-west Thursday.

Illinois—Cloudy, local showers in north and central portions tonight and possibly Thursday morning; cooler Thursday.

Wisconsin—Cloudy, showers tonight and probably in east portion Thursday morning; warmer in east portion tonight; cooler in west and central portions Thursday.

Iowa—Cloudy, cooler in west and central portions tonight; Thursday probably fair, cooler in east portion.

DEVINE CHOSEN COMMISSIONER IN TOWN'S POLL

Tayman, Squier, Heckman Elected Constables Yesterday

The annual town meeting was held yesterday afternoon at the city hall and attracted a small attendance. John H. Loftus was appointed moderator of the session and the regular annual reports were read and filed.

A proposition to purchase the Elmer Uhl property on East river street to be used for the storage of township road equipment was presented and adopted by a unanimous vote.

Supervisor D. H. Spencer was given a unanimous vote of approval for the able and efficient manner in which he has conducted the office of overseer, of the poor of Dixon township for the best interests of the taxpayers.

The board of canvassers will meet this afternoon to canvass the returns of yesterday's township election, in which James Devine, Jr., was elected Commissioner of Highways; Joseph E. Valle was chosen Justice of the Peace and E. A. Tayman, Merton W. Squier and Louis H. Heckman were elected Constables.

Results of township elections about the county were:

Results About County

Amboy—In a hotly contested fight in which five candidates sought the position of highway commissioner of Amboy township, Joseph Grennan was successful by a majority of 95 votes over the present incumbent, Ben Flint.

Nachusa—Harry Weigle, present highway commissioner of Nachusa township was re-elected yesterday by a vote of almost 2 to 1 over his opponent, August Burdett. The final count showed 153 votes for Weigle and 82 for Burdett.

Palmyra—Paul McGinnis emerged the victor in yesterday's township election for another term in office as highway commissioner of Palmyra township. McGinnis defeated E. Plock by a vote of 180 to 125.

South Dixon—In a bitter contest for the highway commissioner of South Dixon township staged yesterday, Dan Origenes emerged the winner. The incomplete result of the vote gave Origenes, 102; Nafziger, 87; Reinhardt, 75; Gupta, 69, and Eastman, 63.

Ashtabula—Carl Stephan defeated Charles Kurl by the close margin of eight votes in a bitterly contested battle for the office of commissioner of highways of Ashtabula township here yesterday.

Bradford—Andrew Sharp was elected highway commissioner of Bradford township yesterday in a quiet election.

Reynolds—Michael Sullivan received a majority of votes for the office of highway commissioner yesterday in a hotly contested campaign for that office.

Franklin Grove—Horace Dysart of Franklin Grove was re-elected highway commissioner of China township yesterday with but very slight opposition.

Sublette—Highway Commissioner Ben Full was re-elected for another term in Sublette township yesterday in face of opposition.

Viola—Ed Whitsell was elected highway commissioner in Viola township yesterday in a hotly contested battle in which three candidates participated. Whitsell received 160 votes, Frank Knauer, the present incumbent, 70 and William Danekas, 28.

West Brooklyn—Louis Davis won a bitter fight for the office of highway commissioner of Brooklyn township yesterday in which six contestants sought the office, the result being as follows: Louis Davis, 209; Harry Christensen, 178; Alvin Beemer, 14; E. E. Vincent, 80; Harry Bauer, 58 and Frank Brauer, 55.

"Gloom Chaser" Is Suing For \$25,000

St. Louis, April 6—(UP)—Miss Mary Walsh believes her 15 years of service as a "gloom chaser" for the late Mrs. Anna Herboth, wealthy widow, is valued at \$25,000.

Her claim to that amount from the estate has been backed up at a hearing here by Mrs. Mary McCann, Chicago, blind psychoanalyst and president of the American Blind Association.

According to Miss Walsh, she entered Mrs. Herboth's employ in 1916 when 23 years old—hired to "drive away the gloom" from the widow, who was alone in the world, having lost her husband and four children.

Mrs. McCann testified that the St. Louis widow told her before her death last year she intended to leave \$25,000 to the "gloom chaser." The will, which is being contested, stipulated but a \$2,000 bequest.

Mrs. Sarah Hummer Funeral Tomorrow

BROTHERS LOST HIS APPEAL FOR REVIEW OF CASE

RockfordMasonsAlso Denied Rehearing Of Tax Appeal

Springfield, Ill., April 6—(UP)—Leo V. Brothers, whose conviction for the murder of Alfred J. Lingle, Chicago Tribune crime reporter, was affirmed by the state supreme court as its February term, was denied a rehearing by the high tribunal today.

Brothers was sentenced to 14 years imprisonment in Joliet penitentiary following his conviction. He was removed to the penitentiary to begin serving the term several weeks ago after the Supreme Court had affirmed the lower court's decision.

The Lingle murder, which occurred in June, 1930, was one of the most sensational in the history of Chicago's gangland. A nationwide search for the slayer of Lingle resulted in the arrest of Brothers in Chicago several months after the slaying.

The court also denied a petition for rehearing in an appeal by the Masonic lodge of Rockford, to escape payment of taxes on its property on the ground that it is a charitable institution. The court in February ruled the lodge not to be exempt from taxation.

Rehearing also was denied George Montgane, convicted in DeKalb county Circuit Court, on a charge of violation of the state prohibition laws.

YOUTH, SEIZED BY CONVULSION, DROWNS TUESDAY

Body Of Clement Charland Found In Rock River Last Eve

Clement Charland, son of Mr. and Mrs. Louis J. Charland, 513 First street, drowned in back water from Rock river about 500 feet west of the Illinois Central railroad bridge early yesterday afternoon, while presumably walking on a log which extended out into the water.

The body was found last evening at 7:30 by the father and brother of the young man, who with several others formed searching parties when Clement did not return home at the supper hour.

The young man had been subject to convulsions for the past seven years and the position of the body indicated that he suffered from one of these attacks and had fallen in less than a foot of water, face downward and drowned. He had accompanied his father and brother to the Borden condorsary at noon yesterday and planned to spend the afternoon along the river and in the wooded section south of the condorsary as he had done many times previously.

Search Instituted

When Clement failed to appear at his home at the dinner hour, members of the family started a search which failed to locate any trace of him at the homes of friends. It was then that additional aid was summoned and a search of the wooded section in the rear of the condorsary plant was instituted.

The deceased was born in Richmond Vt., August 21, 1911 and came to Dixon about two years ago with his parents, Mr. and Mrs. Louis J. Charland. He was aged 20 years, seven months and 15 days. He is survived by his parents and two brothers, Louis J. Charland, Jr. of Dixon and Walter F. Charland of Paris, France. One brother, Barnard preceded him in death.

The body was removed to the Jones funeral home where Coroner Frank M. Banker conducted an inquest at 10 o'clock this morning, the jury returning a verdict of accidental drowning while suffering from a convulsion. The body will be taken to Richmond Vt. for burial.

INJURIES FATAL

Racine, Wis., April 6—(UP)—Charles Landis, 23, Libertyville, Ill., died in a Racine hospital last night from injuries received in an airplane crash near Raymond Center, Lyle Eldridge, 23, Antioch, Ill., was killed instantly. The men were believed to have lost their bearings in a dense fog.

Terse Items Of News Gathered In Dixon During Day

FISHING PERMITS HERE.

City Clerk Blake C. Grover has received his first consignment of 1932 fishing licenses. Books of licenses have been placed at the United and Covert cigar stores and at the Puffs confectionery for the convenience of the fishing public.

FOR GARBAGE COLLECTION.

The regular collection of garbage throughout the city was started April 1 and will continue through the summer season. The collection of ashes and other refuse was stopped with the beginning of the season. Those desiring the garbage collection service will phone L1178 or M503.

IS CRITICALLY ILL.

Mrs. Robert DePuy of Nachusa has received word from Mrs. C. G. Preston, her sister-in-law in Denver, Colo., of the critical illness of the latter's mother, Mrs. Arthur Deming. The Prestons are former Dixonites also Mrs. Deming, who lived on College avenue and who went to Denver about a year ago to be with her daughter.

SEEK CHECK ARTISTS.

Two well dressed men about 30 years of age driving a Ford coach bearing 1932 Illinois license plates, 625-3682, were reported to have visited several neighborhood grocery stores in and near Dixon last evening, ordering bills of groceries. In two instances the groceries were ordered, but the purchaser left hurriedly when his companion, who remained in the car, summoned him. In one instance which was reported to the police this morning, a worthless check in the sum of \$18.85 was given in payment for the groceries. The check bears rubber stamps of an oil refinery firm and the name of a district manager, who, it developed, it unknown to the company, officials of which were notified by Chief Van Bibber.

ANNIVERSARY OF ENTRY IN WORLD WAR OBSERVED

President Reviewed Big Parade Today In Washington

Washington April 6—(UP)—The ceremonial avenues of the Capital were cleared today for the marching feet of 30,000 men, parading in commemoration of America's entry into the World War 15 years ago.

The exercises, in which President Hoover himself arranged to take part as chief reviewing officer, marked more than the annual "Army Day" combining this year with the bicentennial celebration of Washington's birth.

Crack troops from the posts surrounding Washington were placed in the van of the four-hour long parade under Major General Paul B. Maline, Third Corps Area Commander. Marine and Navy units added to the Army display. Behind the active service men and numerous bands were placed detachments of World War veterans national guard and organized reserves.

At a point by the tall shaft of the Washington Monument the President's reviewing stand was erected along the recently widened Constitution Avenue. Besides the President, Secretary Hurley, General John J. Pershing, Brigadier General John Ross Delaford of New York, Commander of the Military Order of the World War were among the reviewers.

The reviewing stand was erected along the recently widened Constitution Avenue. Besides the President, Secretary Hurley, General John J. Pershing, Brigadier General John Ross Delaford of New York, Commander of the Military Order of the World War were among the reviewers.

House Wet Bloc To Try Once More

Washington, April 6—(AP)—Confident they can force still one more vote on prohibition in the House this session, the Democratic and Republican wet blocs have decided to file a petition next Tuesday for bringing the O'Connor-Hull beer bill to the floor.

This measure, designed to legalize 2.75 beer and tax it three cents a pint is before the Ways and Means committee as a revenue bill, but the committee has declined to report it.

If the petition receives the needed 145 signatures, the vote may be brought May 9.

GOVERNMENT IN NEWFOUNDLAND FACES DEFEAT

Wild Rioting Yesterday May Force It To Step Down

BULLETIN

St. John, N. F., April 6—(AP)—Newfoundland was expected to resort to a National government today to placate the mob which yesterday smashed the windows of the House assembly and caused the precipitous flight into hiding of Premier Sir Richard Squires.

The resignation of the Squires government, the promise of which had been the subject of determination to throw the Premier into the harbor, had not been received at 10:00 A. M. today.

The suggested National government would be headed by F. C. Alderice, present opposition leader. Sir William Coaker, Minister without portfolio in the Squires cabinet, was expected to advise Governor Sir John Middleton to ask the Squires resignation.

Meanwhile, with the political future of the Dominion in doubt, war veterans were banded to combat the mob sway.

St. John, N. F., April 6—(UP)—A mob of rioters ruled St. John today after storming Parliament buildings, wrecking government offices, assaulting Prime Minister Sir Richard A. Squires, and threatening to tear Inspector General of Police Hutchings to pieces if they could lay hands on him.

The Prime Minister's life was saved, probably, by a Catholic priest friend.

"This is not a riot, it is revolution," Sir John R. Bennett, K. B. E., former Acting Premier and a veteran in service of the Newfoundland government, said as he watched the mob. It was throwing everything movable out of the Parliament buildings, attempting to burn the buildings, and uprooting fences around the grounds to use pickets for weapons.

It was reported that Sir Richard had resigned but officials said it was impossible for the cabinet to resign until Sir Richard had been received by the Governor, Sir John Middleton. It was understood, however, that members of the Cabinet had advised the Governor to ask for the Prime Minister's resignation.

Mob Numbered 15,000

The mob numbered about 15,000 at its greatest strength when a parade started from the Maritime theater to the Parliament buildings. Resolutions protesting against alleged blocking of popular demand for an investigation of the government were being considered there. The parade started in an orderly fashion. Witnesses said the rioting started when police assailed the crowd at the Parliament buildings.

Sir William Coaker, Minister without portfolio, was received by Governor Sir John Middleton and expressed his own intention and that of other members of the Cabinet to resign as soon as the Prime Minister.

The rioting was the result of the acute economic situation here and was attributed by several prominent citizens to the dilatory tactics of the government in dealing with public demands for relief.

Attacked Three Weeks

The government has been attacked by the opposition for three weeks. The opposition demanded investigation of charges of malfeasance in public office and misuse of public funds by the Prime Minister and Secretary of State. After the charges had not been formally denied, resolutions were passed at public meetings protesting against the alleged blocking of the investigation.

The resolutions were being considered in Parliament when the rioting broke out. It was the second time in recent weeks that the government buildings had been invaded. The crowd threatened to take Sir Richard to the waterfront and throw him in the harbor, just as they had threatened to throw him out of a window several weeks ago when a mob invaded his offices and forced him to telephone orders for an increase in unemployment relief.

Sir Richard obviously realized his great danger. Surrounded by a mob apparently out for his scalp, he took a ring from his finger and handed it to a burly fisherman, John Power, one of his few defenders among the citizenry.

Realized Danger

"Take this, John. They may drown me," Sir Richard said as he handed the fisherman his ring.

Most of the police force was driven inside the Parliament buildings along with members of the government and the opposition deputies. The besieged were allowed to leave the wrecked buildings at 10 P. M. last night after being held for six hours. The police passed out in single file through the mob, their uniforms torn, heads and faces soot and bleeding.

The police were released only after the mob had been assured that Inspector General Hutchings had escaped. Officers returned to their barracks. The crowd looted and jeered. Other police were

Georgia Delegates Will Be Selected

Atlanta, Ga., April 6—(AP)—Georgia Democrats assembled for their state meeting today to name delegates to cast Georgia's 28 votes in the national convention at Chicago for Governor Franklin D. Roosevelt of New York as the Democratic party's presidential candidate.

Every county in the state voted an emphatic majority for Roosevelt in the Georgia primary on March 23, swamping his opponent Judge G. H. Howard, who said he ran for Speaker John N. Garner and the party representatives met today to carry out the mandate of the Democratic rank and file.

(Continued on Page 2)

New York Legion Protests Further Raids On Treasury

New York, April 6—(UP)—The American Legion was called upon today to force its officers and executives "to cease further agitation for Treasury raiding for veterans."

A stinging telegram forwarded by the Willard Straight post of the Legion to National Commander Henry L. Stevens, charged flagrant abuses which it attributed squarely to the Legion itself, adding that Congress has been intimidated by a "paid Washington lobby and high pressure propaganda."

Stevens yesterday was quoted by the White House as endorsing the President's opposition to any bonus at this time.

The message, one of the sharpest exchanges of its kind on record, comes on the eve of hearing for more bonuses to ex-service men, opening next week at Washington.

"We demand," said the telegram from the New York veterans, "discontinuance of Washington lobby and all attempts to coerce Congress to vote additional billions and special privileges which will thereby degrade patriotism of war service, imperil government finances, gouge taxpayers and make the word veteran synonymous with pauper and graft."

The whole subject of veterans grants came under the lash of the local post which charged that the living were favored over the widows and dependents of the dead.

"Is this," the post asked, "because dead veterans cast no votes?"

DIXON MILK PRICE
From April 1 until further notice the Borden Company will pay \$1.10 per cwt. for milk testing four per cent butter fat, direct ratio.

Newman Bros. To Aid 25 Unemployed

A novel plan whereby 25 Dixon men are to be furnished employment by the Newman Brothers one-stop service station, was announced today, the program to start tomorrow. The 25 jobless men will be selected from the register at the American Legion unemployment headquarters.
The men will conduct a house-to-house canvass with service books. As outlined by Newman brothers, the service books can be purchased for 25 cents, this amount being retained by the unemployed man making the sale. The purchaser receives the amount paid for the book when making his first purchase at the Newman Brothers station. The plan is to place 25 unemployed men with work, they to retain the funds received from the sale of the books.
This program is being worked in cooperation with the United States Department of Labor and locally through the American Legion employment bureau, who are contacting with men on their list of registered unemployed. The plan has been endorsed by members of the city council as well as members of the local Legion post unemployment committee. The public is urged to cooperate in making the plan a success in Dixon and vicinity where the books are offered for sale.

Miners' Strike In Indiana Disorderly

Terre Haute, Ind., April 6—(AP)—Union sympathizers and miners working the Dixie Bed mine at Pimento on the co-operative plan engaged in a fight this morning and a dozen men were severely beaten.
The Dixie Bed mine has been picketed for several months by an effort by union sympathizers to persuade the men working in the shaft to abandon the co-operative plan. This plan has been condemned by union officials as being in violation of the union wage agreement.
The disorder at Pimento this morning followed a skirmish Monday at the Starburn mine near Shelby in which union sympathizers disarmed two miners who were working the Starburn shaft. The Starburn mine is also a co-operative enterprise.

BIRTHS

BEENNER—Born to Mr. and Mrs. Darrell Beener at the Dixon hospital Monday, a son.

Trenton, Neb. Is Free Of Taxation

Trenton, Neb., April 6—(AP)—From the standpoint of money and taxes, Trenton was a "heaven" on earth today.
The villagers won't have to pay any taxes for at least another year. This was decided yesterday when they voted on the question as to whether they should be taxed. Their answer was "no."
And as to money, officials said, the village had \$10,000 surplus and no place to invest it.
They credited the municipally-owned utilities with having provided more than enough money to meet the city's needs.
And to make matters better electric light rates were reduced 25 per cent the other day.

Georgia has the greatest peach acreage, but California leads all states in size of peach crops.

In Congress Today

Washington, April 6—(UP)—The Senate, through its Finance Committee, today began consideration of the billion dollar tax bill in an atmosphere indicating a protracted and probably bitter battle over certain of the provisions approved by the House.
Secretary of Treasury Mills appeared before the committee to advocate a return to the original Treasury program announced last December. He opposed the House provisions which in his opinion would act as a deterrent to a business revival. He specified corporation tax increases, stock and bond transaction levies and dividend taxes as among "vices" which have crept into the bill.
Prohibition Director Woodcock gave to the House Judiciary committee his qualified approval of the Beck-Celler bill, modifying restrictions on medicinal liquor permits. He urged, however, that the provision permitting unlimited prescriptions be eliminated.
The House Elections committee postponed until April 14 further action in the Disney-O'Connor congressional elections contest in Oklahoma.
Herman Mueller, traffic director of the St. Paul Association of Commerce, appeared before the Senate Commerce committee and urged enactment of the Shipstead rivers and harbors development program.

Rep. Woodrum, Dem., Va., attacked the Farm Board from the House floor. He said farmers were being preyed upon by "racketeers and parasites."
Senator Capper, Rep., Kan., introduced a resolution extending the scope of the Kellogg pact in such a way that the United States would not engage in any agreement arranged by a pact violator.
Assistant Attorney General Richardson, who investigated law enforcement conditions in Honolulu and submitted a report to the Senate Monday, presented his recommendations for changes in the situation. He would take away some of the powers of Honolulu officials and transfer appointive functions to the President.

Peace-Preaching Chaplains Are Hit

New York, April 6—(AP)—The "Peace-Preaching Chaplains" have no place in the Army, the Rev. Paul Dwight Moody, president of Middlebury College, Middlebury, Vt., said today at the opening of the seventh annual convention of the New York Chapter of the Army Chaplains Association.
"Peace does not mean the negative thing which the pacifists represent it to be," said Dr. Moody. "Nor is war the supreme evil. The servant of the Prince of Peace is the servant of good will, a much greater thing."
"My quarrel with the pacifist is his puny, anemic definition of peace. Good will will prevent a state of mind that leads to war. There is a better thing than settling disputes. It is the creating of an atmosphere where disputes can not arise."

Gangsters' Friend Is Found Murdered

St. Louis, April 6—(UP)—Leonard (Monk) Sanders, friend of gangsters and arrested 18 times as a suspect on robbery charges, was shot to death today near a business street intersection where he had parked his taxicab.
No witnesses to the early morning shooting were found. The supposition was that the three shots fired at Sanders came from an automobile, which then was driven away.
Sanders was 29 years old. One of his pals, Walter Stevens, member of the old Tommy Hayes gang, Stevens was indicted yesterday on first degree murder charges in connection with the slaying of a gangster here last summer.

Percy B. Coffin Died Yesterday

Chicago, April 6—(UP)—Funeral services for Percy B. Coffin, 60, who was a member of the State Tax Commission under Gov. Len Small, will be held tomorrow.
Coffin died at his home here yesterday after a long illness.
Coffin, a veteran of the Spanish American war, also served as president of the Chicago Civil Service Commission in 1915 and business manager of the Chicago Board of Education in 1917. He managed Small's campaign for Governor in 1924.

HOUSE REVENUE BILL ATTACKED BY TREAS. HEAD

Secretary Mills Appears Before Committee Of Senate

Washington, April 6—(UP)—The billion-dollar tax bill as passed by the House was criticized by Secretary of Treasury Mills today as a measure which, if enacted into law, would "tend to retard business recovery."
Mills' criticisms were voiced when he appeared before the Senate Finance committee at the beginning of Senate action on the bill.
Mills detailed a number of features which he believes should be changed by the Senate. He attacked the corporation income tax rate as set by the House and declared the stock transfer tax to be excessive under the existing conditions.
Mills also urged that the Senate eliminate the House provision which put a tax upon dividends received by individuals.
Mills referred to the committee the original Treasury tax recommendations as presented to the House Ways and Means committee at the beginning of tax bill consideration. He said the Senate group might want to go back to some of these if it decided to change the House measure.
Regarding the manufacturers' sales tax, Mills said the House bill, which was changed to include taxes on automobiles, radios, and so-called "luxury" levies, presented "problems" usually dealt with under a tariff act. He said that their inclusion in a tax bill was a "matter of policy for Congress to determine."

Corp Tax Too High
"I believe," said Mills, "that the corporation income tax rate is too high; that there is no justification for compelling corporations to pay for the privilege of filing income tax returns in accordance with their usual method of doing business and keeping their books; that the concealed double taxation involved in discontinuing the exemption of dividends from normal tax is unsound, resulting as it does in discrimination against the corporate form of doing business, with particular hardship to the smaller corporation as compared with a partnership, that completely doing away with the net loss provision is hard to justify in times like these; that the stock transfer tax is excessive under existing conditions; and that the estate tax rates are too high."

Restrictive Measure
The Secretary asserted that "the cumulative effect of all these provisions is very great."
"They tend," he said, "to converge the full weight of each of them upon capital actively employed in business, and to discourage the normal flow of capital into industry and commerce at a time when business men are hesitant and industry stagnant."

"Their combined restrictive effect magnified by the deadening influence of the depression will in my judgment tend to retard business recovery."
"What we want to accomplish above all else at the present time is to break down the vicious circle of deflation of credit, industrial stagnation, falling prices and loss of purchasing power. To put men to work capital must go to work. Credit must be sought and freely offered. But capital must see some chance of profit to compensate for the risk. Business men will not borrow and banks will not lend unless the enterprise offers some fair prospect of return."

Winter Is Taking Bow In Mountains

Denver, April 6—(AP)—Although its tenure was to be brief winter took another bow today in the Rocky Mountain region.
A snow storm broke unexpectedly last night in southern Wyoming. Temperatures dropped as much as 40 degrees overnight. Four inches of snow fell at Casper, but it was fair there today and the snow melted rapidly.
Snow was general in eastern Colorado. Rain turned to snow today in Denver.

CLAIMS ACCIDENT.
St. Louis, April 6—(UP)—Jack Regard, 24, traveling salesman of Quincy, Ill., was in a serious condition at St. Luke's hospital here today suffering from a bullet wound inflicted, he said, when a rifle accidentally discharged while he was examining it.
Regard was found in the apartment occupied by Mrs. Florence Richardson and her family where he rooms when in St. Louis. Mrs. Richardson's daughter, Joan, said she had rejected Regard's proposal of marriage a few hours before he was found wounded.

QUAKE IN CHINA
Shanghai, April 6—(AP)—An earthquake which lasted several seconds shook the cities of Hankow and Nanking this evening.
There were no reports immediately available of the number of casualties and the extent of the damage.

Roosevelt And Hoover Winners In New York Poll

BY THE ASSOCIATED PRESS.

An exceedingly heavy Democratic vote in Wisconsin normal Republican stronghold was a conspicuous development of presidential primary voting yesterday in the western state and in New York.
The forces of Franklin D. Roosevelt won by a landslide in Wisconsin over an unopposed ticket favorable to Alfred E. Smith. They also carried against a Smith slate the one contest in New York state in the Buffalo district. All other delegates were chosen without opposition, the upstate men generally favoring the Governor, the Tammany block uncommitted.
The Hoover ticket walked away in New York's Republican primary, marked by only two district contests. However, conservative G. O. P. forces in Wisconsin apparently were beaten once again by the Progressives under the LaFollette. The LaFollette delegates favor Senator George W. Norris of Nebraska, for President, while the unpledged conservatives have given "tacit approval" to the Hoover administration.
In municipal and township elections in Illinois, Democrats storming Republican strongholds taking Chicago, Chicago suburb and one-time Capone base, for the first time in 16 years; winning Nashville, downstate, for the first time in a quarter century, and setting a 40-year precedent in election a high-way official at Joliet.
Milwaukee re-elected the Socialist mayor since 1916, Daniel W. Hoan, in a sweep of offices which gave him the greatest triumph of his career.

Hostilities Mark Students' Strike
New York, April 6—(UP)—Hostilities broke out on the Columbia University campus today as the one-day strike in protest against the expulsion of Reed I. Harris, editor of The Spectator, undergraduate daily, went into effect.
Attempts by a group of strike pickets to cover the mouth of the statue of alma mater with black crepe to symbolize "gag-rule" at Columbia resulted in a spirited battle between a band of strikers and members of the so-called football element, which Harris had criticized editorially.
Hundreds of students walked about the campus, wearing in their lapels pasteboard tags bearing the legend: "On Strike." Scores carried strike banners. About 150 student pickets patrolled the doors of all academic halls.

GOVERNMENT IN NEWFOUNDLAND FACES DEFEAT

(Continued From Page 1)

roughly handled by rioters in other parts of the city.
The Rev. Father Pippy, shielding the Prime Minister from the mob after he had been smuggled out of the Parliament buildings, stood his ground courageously as the hostile crowd came charging toward him. Father Pippy and his companions were pushed roughly against an automobile. The priest climbed on the running board and made a fervent appeal that the crowd do nothing further to harm the Premier.

OUR WAY WE BEAR

OUR CROSS—
GOD keep us through these somber days.
These days when doubt and fear surround,
When pessimism clouds our gaze,
And naught but self seem worth the count.

Master stretch our vision far
Keep Thou our heart serene,
Preserve intact our childhood faith,
Upon its precepts, trustful, lean.

Teach, us it matters not the trail
The emptiness of earthly loss,
But all worthwhile is just the way
We bear our cross.

Bonelli Sings Here April 25th

"An operatic baritone of authentic calibre was introduced to New York listeners yesterday afternoon by Richard Bonelli, a luminary of the Chicago Civic Opera Co. who appeared before a large and admiring audience in Carnegie Hall. Mr. Bonelli disclosed a voice ringing and virile, with an upper range of distinguished quality, a voice perfectly disciplined to any commands he placed upon it. There are very few epochal baritones at present which surpass that of the Chicago singer in rich and mellow euphony. The newcomer need fear little rivalry in his field," was Richard Stokes comment in the New York Evening World on the occasion of the baritone's New York debut.

Mr. Bonelli will sing at the Methodist church on April 25th, at 8 o'clock, under the auspices of Dixon Civic Music Assn. thus affording local music lovers the opportunity of hearing this magnificent artist.

PRAIRIEVILLE P. T. A. TO MEET THURSDAY EVENING

The Prairieville Parents Teachers association will meet tomorrow evening at 8 o'clock at the school. The program will be in the form of a reminiscent meeting and all past presidents of the association as well as those of nearby associations have been invited to be present.

By MRS. ALEXANDER GEORGE

AN APRIL DAY
Breakfast
Stewed Prunes, chilled
Egg Omelet
Bran Muffins
Coffee
Luncheon
Lenox Sandwiches Tea
Fruit Cookies Apple Sauce

Dinner
Baked Ham and Escalloped Potatoes
Bread Butter
Vegetable Salad in Gelatin
Sliced Bananas
Peanut Butter Cookies
Coffee
Bran Muffins
(Serves 10, with buttermilk)

1-2 cups bran
1-2 cups flour
4 tablespoons sugar
1-2 teaspoon salt
1 teaspoon soda
1 teaspoon baking powder
4 tablespoons molasses
1 egg
1 cup buttermilk
3 tablespoons fat, melted.
Mix ingredients and beat 2 minutes. Half fill greased muffin pans and bake 20 minutes in moderate oven. Serve warm or cold.

Lenox Filling

(For 12 Sandwiches)
1-2 cup cottage cheese
1-2 cup chopped pimiento or stuffed olives
3 tablespoons chopped onions
3 tablespoons chopped celery
1 hard cooked egg
1-4 teaspoon salt
1-4 teaspoon paprika
4 tbsps. salad dressing
Mix ingredients with fork, and spread on buttered slices of white bread. Add shredded lettuce and cover with other buttered slices. Press firmly and cut off crusts with a knife.

Peanut Butter Cookies

1-2 cup butter
1-2 cup peanut butter
1-2 cups sugar
2 eggs
4 tablespoons cream
1 teaspoon vanilla
1-3 teaspoon salt
2-1/2 cups flour
2 tablespoons baking powder
Cream the butter and peanut butter. Add sugar and mix until very creamy. Add eggs and cream. Beat 2 minutes. Add rest of ingredients, mixing lightly. Chill dough. Drop portions of the dough from end of spoon on to greased baking sheets. Flatten with broad side of spoon or knife. Bake 12 minutes in moderate oven.

Fifi Sues For Divorce Again

Reno, Nev., April 6—(UP)—The "perfect love match" of the former Fifi Widener, New York and Philadelphia society leader, with a poor man, Milton Whiteley Holden went to smash Tuesday when she filed suit for divorce charging cruelty. She asked no alimony.
Mrs. Holden's second marriage followed closely on the heels of her divorce from Carter Leidy, with whom she eloped to Knoxville, Tenn., when she was 17 and he a 20-year-old University of Pennsylvania freshman. That was in January, 1920.

She married Holden at Philadelphia, Dec. 2, 1926.

She is a daughter of Joseph Widener, widely known millionaire race horse owner.

Carmichaels Remarried Tuesday

Albert A. Carmichael and Mrs. Clara M. Carmichael, both of Amboy, who were divorced about a year ago, were remarried Tuesday afternoon at 3 o'clock. The wedding was solemnized at the Baptist parsonage, with the pastor of the Baptist church, Rev. W. W. Marshall, officiating at the quiet ceremony. They were unattended.

Mr. Carmichael, is the agent of the L. C. railroad in Amboy, and he is well known here and in Dixon. Both Mr. and Mrs. Carmichael have many friends who join in wishing them happiness.

VARIOUS SECTIONS M. E. AID SOCIETY TO MEET FRIDAY

Circles 1, 2, 3 and 4 are listed for meetings on Friday as follows (with the exception of No. 4, the sections will meet at 2:30 o'clock).
Circle No. 1, with Mrs. S. S. Dodge, 321 E. Third st.
Circle No. 2, with Mrs. W. H. Gebhardt, 1214 Fourth Street.
Circle No. 3, with Mrs. C. M. Sworm, 240 Chamberlain street.
Circle No. 4 will meet at 11:45 Friday for a picnic luncheon at the home of Mrs. D. G. Palmer, 403 N. Dement Ave.

FIDELITY LIFE ASSN. TO MEET FRIDAY EVENING

The Fidelity Life Association members will hold their regular meeting Friday evening, April 8th, with a picnic supper at 6:30 in Carpenter's hall. Picnic rules will prevail. Coffee, cream and sugar will be furnished. A meeting will follow the supper.

W. F. M. S. TO HAVE PICNIC LUNCHEON THURSDAY

The Women's Foreign Missionary Society of the Methodist church will enjoy a picnic luncheon at 12:30 Thursday at the church. All ladies of the society are invited to be cordially invited to attend the luncheon.

Valuable Hints In Housecleaning

The task of general housecleaning every spring and fall, is laborious at its best. However, new and improved mechanical devices of every description are constantly appearing on the market to lighten the burdens of the homemaker. In addition to these, there are many different abrasives, caustic cleaners, harsh soaps and liquids that serve their individual purposes. The average household does not require strong materials that not only clean but actually mar fine surfaces and injure the hands. Even the use of ordinary soap alone for everyday cleaning and dishwashing is apt to leave the hands in an unsightly condition. This is because so many soaps are impregnated with silica or caustic soda which are destructive to finished surfaces and irritate the skin. These harsh elements contained in ordinary soap are effectively neutralized by the addition of pure borax to the soap and water for all housecleaning.

Pure borax does not contain any caustic ingredients and will not injure the most delicate skin, in fact it acts like a lotion on the hands. At the same time, borax makes the water velvety soft and dissolves grease and dirt like magic, without damaging the fine finish of painted, enameled and varnished surfaces.

Painted Walls, Woodwork, etc.

With cleaning painted walls and woodwork, dissolve two tablespoons of pure borax in a little hot water and add two quarts of lukewarm water. A mild soap or soap flakes may also be added. Be sure to wash only a small space at a time, rubbing up and down in straight lines, letting each stroke overlap the last, to avoid leaving streaks.

Enameled Surfaces

For enamel paint use soapy water, adding pure borax in the same proportion as directed for washing ordinary painted surfaces and proceed in the same manner. When surfaces are clean and dry, rub with a very soft cloth to restore gloss.

Varnished Surfaces

Before washing varnished surfaces, dust thoroughly with a soft brush. Dissolve two tablespoons of pure borax in a cup of boiling water and add to three pints of cold water. Wash with the borax solution using a flannel cloth. Dry with chamois or a soft linen cloth. The use of a little lined oil or furniture polish.

Closets, Shelving, etc.

The painted, enameled or varnished kitchen cabinets, closets, shelving, etc., should be washed in the manner directed for the different types of surfaces. Finally sprinkle a little dry powdered borax in the nooks and corners to discourage roaches, waterbugs, and other insect pests. Pure borax is non-poisonous and absolutely safe to use.

GLORIFYING YOURSELF BY ALICIA HART

Perhaps you have failed in the quest for charm and beauty. There is then, another attribute that need not escape you.

Daintiness! Daintiness is the sum of all that is truly feminine. And the key to daintiness is cleanliness.

With warmer months in the offing now is the time to check up on all those things that make for daintiness of person — details of your grooming, the kinds of baths you take, the use you make of deodorants the care you give to your mouth and teeth the meticulousness of your lingerie.

And now, too, is the time to declare war on perspiration. For no gown is so becoming, no coiffure so attractive, no make-up so expertly applied that they can aid the woman who has about her a faint aroma of perspiration. And the deceptive thing about perspiration odors is that often the person who has them isn't herself conscious of the unpleasant fact.

No need, probably, to say that the daily bath is the first and best method of combating the odor of perspiration. The bath should be hot and should be followed by a thorough scrubbing under the arms with soap and water. Afterward, a cold shower.

The daily use of a deodorant is almost demanded of the truly dainty woman. Powder, paste or liquid, there are many that will be found to be efficacious. Whatever she may choose, the average woman needs a deodorant almost as badly as she needs soap, water or rouge.

It is likely you will wish to put a deodorant under your arms upon retiring at night. If this is the case, I suggest that after you use your morning shower you use some good cologne or a bit of witch hazel.

W. M. S. OF CHRISTIAN CHURCH TO MEET

The W. M. S. of the Christian church will meet Thursday afternoon at the home of Mrs. Geo. Alshouse, 409 College avenue. Miss Bess Johnson will present the presentation period.

SHEPHERD'S CLASS TO MEET MONDAY, APRIL 11TH

The regular monthly class meeting of the Shepherd's class of the Grace Evangelical church has been postponed. The meeting will be held in the basement of the church on Monday night, April 11th.

Three Words

By HELEN WELSHMER

THREE words I hold that I never say
When I am with you, but every day
I take them out and I polish them
Like an heirloom spoon or a silver cup.

ONCE in a while when I'm alone
I say the words in my nicest tone,
And try to imagine how they would sound
If I should say them when you're around.

I'm keeping them bright as an April star,
So you needn't know how old they are;
I can't let you guess, whatever I do,
That I thought the words till you asked me to.

YOUR CHILDREN

by Olive Roberts Barton

©1931 BY NEA SERVICE, INC.

Mothers often look for certain things in their children's playmates, regardless of deeper qualities that count for so much.

Mary Smith's mother looks down the street at twelve o'clock and sees Mary coming arm in arm with the youngest of the "Jones crowd," that lives on Star Way. They are always called the "Jones crowd," as though they had no right to the word "children."

Mr. Jones did something or other one time, but quite clear in the neighborhood mind and was never more seen at home. Mrs. Jones, a worked-to-death little person, was left with five children to support. She sewed and went out on odd jobs, serving at parties, keeping other people's children, doing whatever she could to feed her own small fry.

She had the qualities of a lady although she usually wore other people's clothes — and so did her children. The Jones children were clean and well-mannered but usually, for obvious reasons, they looked like the rag tag and bobtail of all time.

If Mrs. Jones had had a decent husband she could have and would have lived on North Avenue instead of on Star Way. She would have belonged to the best club and so on, because certain citizens remembered that it was her family who had given the hospital to the town and in those days they had been respected and kowtowed to.

Suspicious of the Joneses

But they also remembered Mr. Jones, and the "Jones crowd" poor little souls, were looked upon suspiciously as undesirable companions for their own children.

Mrs. Smith decides that she will soon put a stop to the intimacy between Mary and Sarah Jones. It has happened too often lately.

"Mary, what is the matter with you and Dorothy? You never seem to play with her any more."

"Dorothy? Oh, nothing. Well — I guess it is because she always wants her own way and if I don't let her have it she says mean things."

"Well, it's too bad. Dorothy's mother is my friend and they are very nice (she meant rich and important, not necessarily 'nice'). Anyway, I don't want to see you with that Jones girl again. You have queer tastes. I must say."

"Sarah! Why, Sarah's the kindest, nicest girl I know."

"Sure. She lets you have your own way because she wants to get in with you. Don't be stupid, child. It is very clear."

"That isn't it at all, really. Mother. She is just nice every way. I always feel so happy when I'm with her, and she knows a lot about books and things. She is going to be a teacher some day."

The upshot of the whole affair was Dorothy's restoration and Sarah's defeat. Mary Smith continued to give in to the selfish Dorothy and in time developed inferiority, discontent and resentment.

There is too much "social game" insisted upon with children. They gravitate to people they like and who understand them. The best playmates are those who bring out the better qualities in each other.

New Baby May Be Named Gloria

London, April 6 — (AP)—Gloria Swanson and her husband, Michael Farmer, wealthy Irish sportsman, were getting acquainted today with a new daughter, born last night at their home on Farm Street, in the fashionable Mayfair section of London.

The noted film actress and the baby were both very well, Mr. Farmer said. The baby was born a few hours after the parents had moved into their new home from the hotel where they had been living since they came to London several weeks ago.

It is Miss Swanson's second daughter. Her first child, Gloria, daughter of her second husband, Herbert Somborn, film executive of Chicago and California, was born ten years ago. She also has an adopted daughter.

She and Farmer were secretly married at Elmsford, N. Y., last August. Their wedding was not announced until November 16, when it was disclosed by the official who issued the license and performed the ceremony.

They had another ceremony at Yuma Arizona, on November 9, after Miss Swanson's decree of divorce from the Marquis de la Falaise de la Courade, her third husband, became final. Miss Swanson's first husband was Wallace Beery, motion picture actor.

"She is a fine baby, with blue eyes like her mother, and dark hair," the proud father told a group of friends who called to congratulate him. "We have not decided what to call her, but as she is like her mother she may be named Gloria. My wife stood the ordeal bravely and could not be better."

Wed Here Twenty-five Years Ago

Morrison — Mr. and Mrs. Earl Green celebrated their 25th wedding anniversary at their home on Clinton street Sunday. Mrs. Green, formerly Luella Kaler and Earl Green were married at Dixon at the M. E. church parsonage, by Rev. C. C. McLean on April 3, 1907.

Those present were Edith, their daughter of Sterling, Mrs. Rhoda Green, Mrs. Della Cobb, Mr. and Mrs. Fred Green, Miss Myrtle A. Green, Mr. and Mrs. Roy James and family, Mr. and Mrs. Willard Goodenough and Mary Goodenough, all of Morrison; Mr. and Mrs. J. E. Longenecker and son, Glen, Mr. and Mrs. LeRoy Thummel, Mr. and Mrs. Lyma Totten and Dr. and Mrs. Walter Dunham of Delevan, Wis.

CANDLELIGHTERS AID SOCIETY TO MEET

The Candlelighters Aid Society of the Presbyterian church will meet Friday afternoon at 2:30 with Mrs. C. C. Godfrey of Peoria avenue. The assistant hostesses will be Mrs. William Daunter, Mrs. A. E. Conrad, Mrs. Collins Dysart, and Mrs. M. Davenport.

COOK SCHOOL P. T. A. TO MEET FRIDAY EVENING

The Cook School P. T. A. will meet Friday evening at 8 o'clock at the school which is located four and one half miles west of Dixon on the Rock Island road. An interesting program has been arranged.

Lesson from Violin Maker's Life

Tuesday evening, the Young People's Conference of the Grady Cantrell meetings met as usual at 6:45 in the Christian church. Divisions were appointed. All those who came last Thursday evening were to be Division One and those joining later Division Two.

The director, "Dick" Choate told of one or two of his experiences at the Y. M. C. A. Camp in Michigan through which the challenge of returning to young people's work came to him. He told of the remarks of two friends from Europe who were so surprised and astonished that American youth would put everything else before the church. Evidently they hadn't been to Dixon yet nor seen what a good conference has been organized.

Mr. Choate urged all to put their best in the meeting. Then he told the story of that great violin maker, Stradivarius Antonio although he loved music could have no part in making it for he did not own a violin, and when he tried to sing his voice squeaked so that the boys laughed. He could whistle but it was hard to do, this when his companions could play and sing so well.

A person passed by who gave the boys a piece of gold. Upon investigation it developed that the man was Anat, the violin maker. A new thought blazed in Antonio's mind. He could not sing but he could whistle. Here in Cremona was a man who with knives and who made wonderful violins. Before dawn, he started to find him taking with him, his knife and some carvings.

The master laid his hand on his shoulder, saying, "Come into the house and try. The song in the heart is all that matters, for there are many ways of making music. Some play violins, some sing, some paint pictures and make statues, while others till the soil and make flowers bloom. Each sings a song and helps to make music for the world. If you put your best into it, the song you sing will be the noblest in the world."

"Humble yourselves in the sight of the Lord and he shall lift you up." "Whatsoever ye do, do it heartily as to the Lord and not unto men."

All are asked to read and reread the Sermon on the Mount, Matt. 5, 6, 7.

Wednesday evening the meeting will be in charge of the Captains—Roy Flamingham (Reds), and Pius Burgard (Blues).

Friday evening there will be a pageant.

A cordial invitation to attend these meetings is extended to all young people high school age or above. The meetings are at 6:45 P. M. during the week.

Interesting Meeting Chap. AC, P. E. O.

An interesting meeting of the Chapter AC, Illinois P. E. O., was held Monday afternoon at the home of Mrs. H. M. Price.

A splendid paper on "Chicago Beautiful," was given by Mrs. John Charters of Ashton in which she told of the "development" of plans in preparation for the Century of Progress Exposition.

Delicious refreshments were served by Mrs. Price and the assistant hostess, Miss Edna Burnham, with Mrs. George Campbell presiding at the tea table.

RED GERANIUMS IN PARIS AND NEW YORK

Red geraniums are being worn in Paris and several boutonnières of them were noted in the Easter parade on Fifth Avenue. They are mostly of red velvet.

ARE GUESTS AT E. J. RANDALL HOME

Mrs. O. G. Sterlie and daughter Frances are guests at the home of her parents, Mr. and Mrs. E. J. Randall, 421 Upham Place.

DORCAS SOCIETY TO MEET THURSDAY

The Dorcas Society of the Congregational church will meet Thursday at 2:30 at the church. A good attendance is desired.

Tea Time Club Meeting Tuesday

The Tea Time Club met at the home of Mrs. E. Irey Tuesday. Cards were enjoyed and prizes were awarded to Mrs. J. Boyer and

MARIAN MARTIN PATTERN

SMART FOR MORNINGS
Pattern 9335

ILLUSTRATED STEP BY STEP MAKING INSTRUCTIONS GIVEN WITH THIS MODEL

A collarless, sleeveless frock that is really nothing at all to make, and most effective finished. The pointed seamings are particularly smart and becoming. The original was made in blue and white pique pin dotted, but the model would be equally smart entirely in one color.

Patterns 9335 may be ordered only in sizes 14 to 20 and 32 to 42. Size 16 requires 2 1/2 yards of 36-inch fabric, 5-8 of a yard contrasting.

To get a pattern of this model, send FIFTEEN CENTS (15c) in coins or stamps (coins preferred). Please write very plainly your NAME, ADDRESS, STYLE NUMBER and SIZE of each pattern ordered.

SEND FOR YOUR COPY OF MARIAN MARTIN'S PATTERN CATALOG. This features 32 pages of the most delightful current models, carefully selected for the woman who sews at home. A wide range of afternoon, evening and sports dresses, special stout models, house dresses, lingerie, pajamas and kiddies' clothes is offered. All of the styles are not only smart, but practical and can be made very inexpensively. PRICE OF CATALOG, FIFTEEN CENTS. CATALOG AND PATTERN TOGETHER FOR TWENTY-FIVE CENTS.

Address all orders to Dixon Evening Telegraph, Pattern Department 232 West 18th Street, New York City.

Mrs. F. Cnare.

Delicious refreshments were served and all had a delightful time. The next meeting will be held at the home of Mrs. Frank Cnare.

(Additional Society on Page 2)

NEWS OF CHURCHES

- Build a Municipal Bathing Pool.
- Advertise the Beautiful Rock River Valley.
- Develop Dixon as an Industrial and Trading Center.

A NEW SET OF GHOST STORIES.

The best ghost stories, usually, are not those invented by some skilled master of fiction; they are those that spring up spontaneously among the ordinary people, traveling about from mouth to mouth and reaching print only by accident.

Recently newspaper correspondents discovered that the farmers who live around Monte Alban, Mexico, where rich treasure-tomb discoveries were made a short time ago, have been telling strange tales about supernatural goings-on in the vicinity of the tombs.

One story has it that a hollow gourd filled with gold appears every so often in the middle of a lake nearby. Another tells of spirits who stalk through the ruins of the old Aztec city, carrying golden ornaments. A third, the most eerie of all, has to do with the reappearance of the old Aztec market.

According to this story, the market place that used to exist at Monte Alban before the white men came will materialize, at night, every so often, just as it was in ancient times. The man who sees it and accepts the phantom as genuine comes to no harm; but if a man sees it and refuses to believe in it, he is straightway enchanted and compelled to become a ghost and wander eternally about the ghostly market, and he never can come back to real life.

These folk tales, born since the ancient ruins were uncovered, will probably be circulating about the villagers in that neighborhood a century from now. They are of the true type of ghost story, the best type; the type that comes into being of itself, so to speak, and does not depend on any professional story-teller for its existence.

There is something rather significant about such stories. They reflect the universal feeling that life is permitted to go on in the presence of unaccountable mysteries; that earth and air and sky veil unimaginable marvels, and that human existence is a far more incomprehensible thing than learned folk assume. And that, perhaps, is why we all enjoy them.

THE BONUS PLAN.

It is rather hard to quarrel with President Hoover's stand in opposition to the passage of additional soldiers' bonus legislation by the present Congress.

To pay the bonus now, in the way generally proposed, would cost around \$2,000,000,000. Just how the strained federal treasury would bear an additional load of that size is not at all clear. A time when every branch of the government is being called on for the strictest economizing is certainly no time for expenditure of such proportions.

If Uncle Sam is to dig down for \$2,000,000,000 worth of cash awards, would it not be better to make it a straight unemployment relief proposition? There are plenty of men besides war veterans who could use federal assistance right now.

WHY THIS BUSINESS IS GOOD.

The magazine Variety reports that fortune tellers, crystal gazers and other psychic wonder-workers are finding business better during the depression than ever before. This is especially true in the theater; whereas in ordinary times there are seldom more than 25 active fortune tellers on the stage in the United States, there are now more than 100—and they are drawing crowds, too.

This, of course, isn't as puzzling as it seems at first glance. When times are good, the ordinary citizen is content to let tomorrow take care of itself. It is when times are bad that he wants to look into the future. He wants to know if he is going to lose his job, or if he is going to get a new one, or if anyone is going to leave him any money; and no matter how hard up he is, he can usually dig up half a dollar or so for the man who professes to be able to tell him.

We are fighting, not for liquor, but for the preservation of a principle on which our government was founded.—Henry H. Curran, president of the Association Against the Prohibition Amendment.

Some of our so-called public spirited citizens are paying young girls \$1 a day for long hours in poorly ventilated sweat shops.—Jake Cohen, president Memphis, Tenn., Trades Council.

The world is looking to us to solve this depression and the one agency on earth which can solve it is the Republican party.—Seth W. Richardson, assistant U. S. attorney, Maine.

I don't expect the theater admission tax to hurt me very much personally. You see Mrs. Garner always pays my way.—John Nance Garner, speaker of the House.

Opera is enough of a racket as it is, without letting the government take a hand.—Gladys Swarthout, youngest opera star.

Father is lucky nowadays if the children look upon him as something other than a middle-some outsider.—Prof. E. R. Mowrer of Northwestern University.

FILMS LURE LONDON STARS FROM BROADWAY

"Imported" Stage Folk Are Won by Fat Screen Contracts

By GILBERT SWAN
NEA Service Writer

New York, April 6.—Hollywood, having almost finished its spring cleaning of the Broadway talent, finds in visiting London beauties this year the fresh material for which the cinema capital is ever hunting.

This raiding of the show shops is no new game, and the theaters have long since missed such favorites as Ann Harding, Sylvia Sydney, Claudette Colbert, Ruth Chatterton and a dozen others.

But the klieg eyes have been particularly fascinated by newcomers from England who were overnight hits in the drama world. Of these Adrienne Allen and Diana Wynyard are the newest to be hurried west. Already in filmland were Elissa Landi, brilliant young writer-actor, and Talullah Bankhead, who though a congressman's daughter from the Dixie belt, had been in London many years.

So the "broad A" will soon be heard all over the land.

The case of Miss Wynyard is particularly interesting, or the rumors are, at least. This actress was brought over by Playwright Benn Levy for "The Devil Passes." Her beauty and ability brought out the better critical adjectives. Hollywood scouts saw her and sighed. So she signed up with MGM.

Now in the film world one of the immediate centers of interest is the case of Greta Garbo and her contract. She has been pictured as unwilling to do any contract that she would like to pack her bags and go back to her homeland for a nice long stay. This, of course, may be another of those "mystery" tales built around Miss Garbo by the publicity offices.

In any event Miss Wynyard is going to be "an ace in the hole." Whether Miss Garbo stays or goes, Miss Wynyard is going to be "built" hurriedly to stardom.

Miss Allen's was another immediate success. She arrived a comparative unknown to Broadway. She was cast in the role of a tragic, love-seeking working girl

in "Cynara," one of the outstanding hits.

Her husband, an actor-director was grabbed up by Universal, and Paramount signed Miss Allen and she left her show to rush to the coast for the leading role in "Merely We Go To Hell."

Miss Landi has been on the Hollywood location for several pictures, with growing popularity. And there you are.

Meanwhile, in the scramble of Broadway and Hollywood, we find Lois Moran successful in a music show, "Of Thee I Sing." Buddy Rogers doubles as a jazz band leader and a star in "Hot Cha." Lupe Velez is the immediate hit of that particular Ziegfeld show; Nancy Carroll is leading a home

life with her newest hubby, Bolton Mallory; Mary Brian is playing the vaudeville circuits—and so are a dozen other Hollywood movie stars.

So Broadway heads for the So Broadway goes to Hollywood, and Hollywood heads for the road and Broadway.

As for the show-shops, it has been a very so-so week. Many arrived, but very few will survive the test.

"Life Begins" turned out to be a serious and tragic sequel to the "Blessed Event." In the latter farce, a gossip writer forecasts all sorts of coming events in the baby market. In "Life Begins," the characters are in a maternity hospital waiting motherhood. Some are wed and some are unwed; one

jumps out a window and one is hurried from a prison where she is held as a murderer; one is a hysteric and one is a victim of a neurotic phobia. Most of the men in the crowd seemed most uncomfortable.

Another tragic and serious opus was "Bloodstream," grim picture of prisoners sent to work in a southern mine and staging a revolt. In the end most of them have been killed. It's an entirely male cast. Also it's the sort of play that must come close to being a masterpiece to succeed. It is not a masterpiece.

Then June Walker and Geoffrey Kerr, recently removed from a very bad play titled "Collision," again seem to have been ill chosen. Excellent actors both, "We Are No Longer Children" is far too thin.

People who live on a diet too largely composed of grain foods have the so-called "deficiency" diseases—like pellagra in this country, in sections where they eat little else except corn bread, fat meat, and molasses; and like beriberi in oriental countries where polished rice is the principal food. The addition of milk or eggs or lean meat or fish, or tomatoes will prevent pellagra; and brown rice substituted for polished rice, will prevent beriberi. This is true because these foods supply the particular substances needed to prevent these diseases. But a balanced diet requires also vegetables or fruits.

The housewife has her difficulties, in meal planning, of course when she must depend so largely on bread and cereals. How shall the mother of a family of five serve 30 pounds of breadstuffs and cereal in a week, in a sufficient variety of ways to make the meals appetizing? It taxes the imagination, perhaps, but here are some suggestions:

Whole wheat rice, bread crumbs or noodles are among the important "makings" of soups or chowders—there is a whole wheat chowder which is very nutritious and very good. Then there are combinations of beef and whole wheat; scalloped liver and whole wheat; liver and rice whole wheat, fish and tomato; whole wheat and pork; brown rice, with cheese, or with both Spanish or Mexican rice, or a pilau of rice or whole wheat; green peppers stuffed with rice; macaroni or spaghetti with chopped cooked ham, with cheese, or with tomatoes and

The Market Basket

By the Bureau of Home Economics U. S. Department of Agriculture and the Woman's Division of the President's Emergency Committee, for Employment.

CHEAPEST BALANCED DIET

"Some like it hot, some like it cold, some like it in the pot nine days old." Mother Goose was talking about pease porridge, but the rhyme may go for oatmeal porridge this time, if not taken too literally. The point is that have ever you take your cereals, whether as porridge, oatmeal gruel, hominy grits, or cornmeal mush, or whether as bread, muffins, or toast, or toast, add milk and you have the basis of a low-cost balanced diet. To keep your food costs down to the lowest limit, build your diet on this basis says the Bureau of Home Economics of the U. S. Department of Agriculture. The other necessary kinds of food—vegetables, fruits, meats—can be used in smaller quantity if you start with plenty of the grain foods and milk.

The low-cost diet begins with bread and cereals because these are cheap forms of energy-giving or fuel foods (which are necessary to keep the body warm and give it power to work) and because they also contain body-building substances. These values come chiefly from the starch and protein contained in the grains and grain products. Whole wheat, brown rice and whole-ground cornmeal contain some minerals and vitamins besides, because they contain parts of the grain usually lost in milling, and it is these parts, chiefly, which contain the minerals and vitamins.

In all but the most exceptional circumstances, and almost everywhere, the grain crops furnish the cheapest energy-giving food, and bread or bread stuffs are the largest single item in the low-cost food supply. For all their importance, however, neither the "staff of life" nor any other grain product will by itself sustain you. And although milk—which is also cheap because it furnishes several other

cheese; noodles or dumplings with meat—any of these makes a substantial main dish for dinner. Whole wheat rice, noodles, macaroni or spaghetti are all good "meat extenders"—that is, they help out if you haven't enough meat for a whole meal, and they are useful with left-overs.

For lunch or supper, fried mush or oatmeal cookies fill a useful place, and for dessert at either there are such possibilities as suet pudding, bread pudding (eggs are cheap now), and apple dumpling or other fruit is cheap—as apples are.

Then, of course, there are the breakfast cereals, and the breads for every meal. Home made biscuits, wheat cakes, and muffins will consume a considerable portion of the week's allowance of wheat flour; corn cakes, corn pone, corn dodgers, spoon bread, Indian pudding and brown bread are made from corn meal. And now when eggs are cheap, French toast is another possibility.

The grain foods are cheapest, of course, when bought in bulk rather than in package. Whole grain wheat can be cracked or ground wheat can be bought at feed stores. Whole grain wheat should be sorted and washed carefully, and soaked over-night (1½ cups of water to each cup of wheat) before cooking. It can be cooked over direct heat or in a double boiler.

Property Of Lost Pilot Delivered

New York, Apr. 6.—(AP)—Water-smeard personal papers of Capt. Parker Cramer, who was lost with his plane last summer on an attempted flight from Detroit to Copenhagen, were received Tuesday by his brother, William H. Cramer.

They were accompanied by a letter from the American Consul at Amsterdam, saying a Dutch fishing vessel had retrieved them from the North Sea about a hundred miles from the spot where Cramer's wrecked ship was found in September, a month after he and disappeared. The items included several instruments, Cramer's flying and radio licenses, a letter from his mother and a cablegram from his brother. There was also a letter written by Paquette to his mother and father.

DOLLAR STATIONERY.

200 sheets, 100 envelopes, Hammermill bond paper with name and address printed on both postpaid anywhere for \$1.00. B. F. Shaw Printing Co., Dixon, Ill. Printers for 82 years.

TODAY IS THE WORLD WAR ANNIVERSARY

GERMAN ATTACK FAILS

On April 6, 1918, French and British official bulletins announced the failure of the German effort to renew their drive on the Somme river in Picardy.

The attack, after two days of furious fighting was almost completely broken down, they reported, and German minor gains had been paid for with tremendous losses.

Paris breathed easier than it had since the Germans began their "great offensive" on March 21.

The Ministere de Smet de Naeyer, a Belgian relief ship, was sunk in the North Sea by a German submarine. Twelve members of her crew lost their lives.

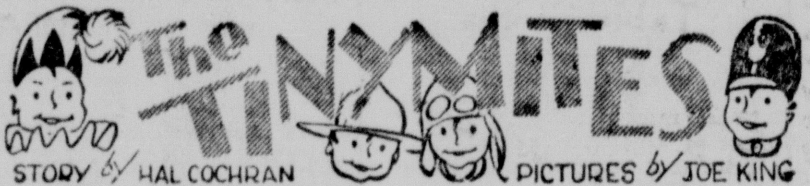

The Soviet government protested the landing of British and Japanese marines at Vladivostok, but allied representatives said the matter was a local incident and that the troops would soon be withdrawn.

German troops in Finland were reported near Helsinki and the Russian fleet there was preparing to escape.

(READ THE STORY, THEN COLOR THE PICTURE.)

"Keep blowing," Coppy loudly cried. "Perhaps that funny man inside the bubble is just waiting for a good chance to pop out."

"He's all curled up and, mercy me, he must feel clumsy as can be. As soon as he can talk, we will find what this is all about."

Poor Windy! Both his cheeks were red and, very shortly, Scouty said, "I fear that he'll run out of breath. I'd better blow a bit."

"But I'm afraid if we try that, the great big bubble will go flat. You can't tell what will happen, if we once let go of it."

Then Duncy cried "I have a plan." To Windy's side he quickly ran. "I'll hold my finger on the pipe while Windy takes a rest."

"The bubble's air then can't come out," "Hurray!" he heard the others shout. They knew that Windy needed help, so that plan seemed the best.

In changing, of course there was a leak. Some air came out and made a squeak, but Duncy thumbed the pipe stem. Everything was then all right.

"Oh, thank you!" wee Windy promptly said. "I had a whirling in my head. Somebody else can blow a while. Just blow with all your might."

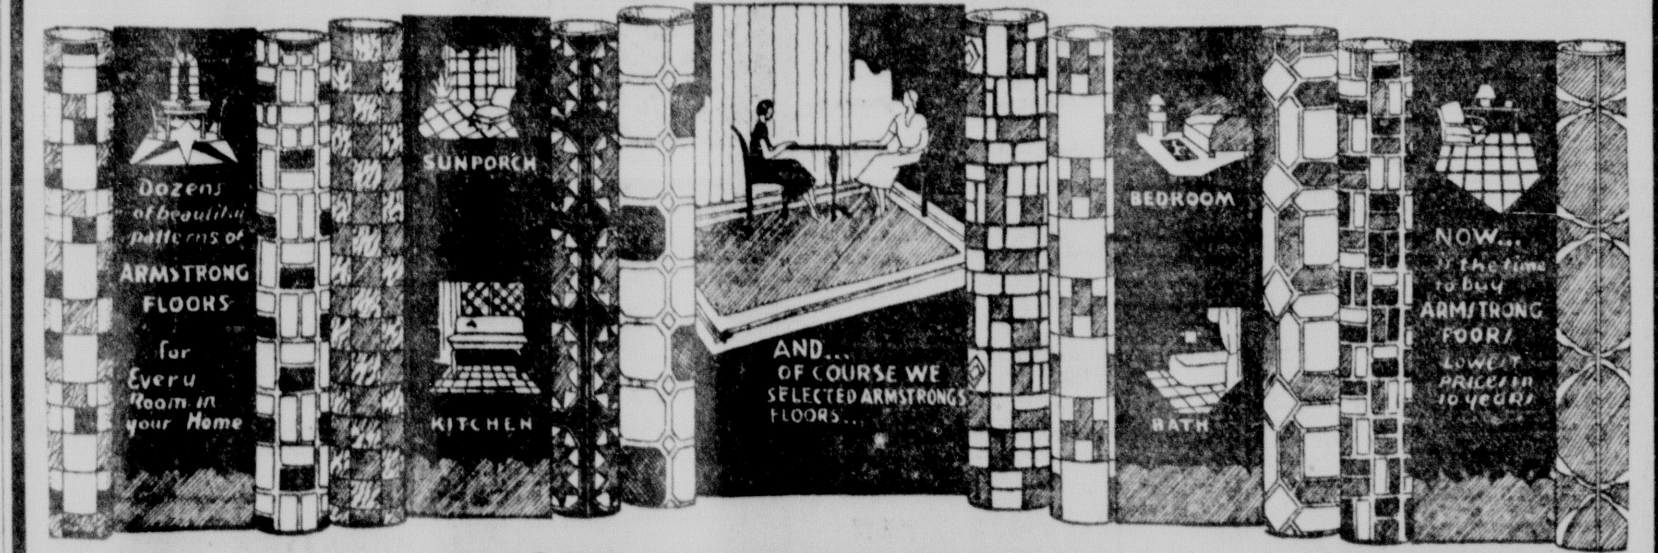

"Leave it to me!" wee Duncy cried. "The something that I have never tried, but shucks, my lungs are good and strong, so watch me. Here I go!"

He blew and blew and blew and blew and someone said, "Three cheers for you!" 'Twas really quite a thrilling sight to see the bubble grow.

The man inside the bubble seemed to be real pleased. Then Scouty screamed, "Oh, something's going to happen that will make a great big noise." And something did. The bubble popped and into the air the fat man hopped. Before he even reached the ground he shouted, "Thank you, boys!"

James Dempsey of Walton was in Amboy Friday evening.

May Try Loftus

In Los Angeles

Chicago, April 5.—(UP)—Donald Loftus, bank robbing Romeo whose activities involved a dozen banks in the past three years, may be turned over to Los Angeles authorities before Illinois, Ohio and Wisconsin cities may claim him, it was indicated today.

Chief of Detectives William Schoemaker said he was awaiting word from the California city before surrendering Loftus to any of the five Illinois counties where he is wanted on bank robbery charges.

Loftus confessed, according to police, to the robbery of three Los Angeles banks in 1929, which netted him \$25,000.

Loftus, admitting that all but \$800 of his reported \$100,000 loot from banks was spent on women, denied that he was a Romeo. He appeared irked at the publicity he received on account of his affairs with numerous women.

Loftus, who is now in the custody of the Los Angeles police, is being held in the city jail.

OBITUARY

FRED W. WORSLEY

(Telegraph Special Service)

Mendota, April 6.—Frederick W.

Worsley, 84, died late Monday

morning at his farm home east of

Mendota after a several months

illness. His condition was serious

the past few weeks. The decedent

was a life long resident of this

locality and he was prominently

known in this community. He was

born on a farm in Meriden town-

ship, February 26, 1848, a son of

the late Joseph and Esther Cran-

dall Worsley, who were early set-

tlers in this locality. He followed

the occupation of farming and

lived continuously at his farm

home east of the city.

He leaves three sons, Harry F.

Worsley, Kent, Iowa; Dr. Willard

Worsley, Dixon and Addison Wors-

ley of this city, three daughters,

Mrs. Richard Steele, Creighton,

Neb.; Mrs. Raena Brown and Mrs.

George D. Smith of Mendota. His

wife died on March 13, 1923 and

three children have also preceded

him in death. Nine grandchildren

and four great grandchildren also

survive.

Funeral services were private

from the late residence Wednesday

afternoon at 2 o'clock with inter-

ment in Restland cemetery.

BLOOMERS PANTIES

WORLD OF TURF MOURNS DEATH OF GREAT HORSE

Phar Lap, Wonder Horse
From Down Under,
Died Suddenly

By RUSSELL J. NEWLAND
Menlo Park, Calif. Apr. 6.—(AP)—
Phar Lap is dead.

All the world of turf and thoroughbred mourned today the passing of Australia's wonder horse—whose silks have been lowered in the final chapter of a career as glamorous as any in the history of racing.

Word of his death from colic came late yesterday as suddenly as the lightning, from which he drew his name in Senegalese, sears the sky.

Only a little more than two weeks ago this great red gelding had signalled his North American invasion by winning the rich Agua Caliente, Mex., handicap, a matter of \$50,000.

His return trip by motor van up the coast was uneventful. He was quartered contentedly in private stables here, awaiting a special race at Tanforan track. It was to be a prelude to an attack on one of the strongholds of racing in this country, Chicago. There some of America's finest bits of horseflesh, such as Twenty Grand and Mate, were waiting to match strides with the "red terror from down under."

An autopsy showed the great thoroughbred died from the effects of green feed nibbled from a California field, after he had withstood the rigors of a 10,000 mile sea voyage across the Pacific.

Guarded Day and Night
Guarded by attendants who watched his every movement by day and slept near him at night, the big horse is believed to have picked up a mouthful of green feed while exercising in a field adjacent to his quarters.

Veterinarians think a bit of fox-tail, or alfalfa or barley, sodden with dew induced the colic. The horse was valued at \$500,000 by D. J. Davis of San Francisco, joint owner with Harry Telford of Australia of the mount.

Rumors of poison were circulated, but these were discounted by attendants, including Dr. William Nielsen, veterinarian who journeyed from Australia with the horse.

Dr. Nielsen, with Dr. Caesar Masiero of San Francisco, performed the autopsy. The examination revealed a highly inflamed stomach, somewhat perforated. It was thought the irritation must have begun two days before. Phar Lap was galled at 6 o'clock yesterday morning.

Owner Davis, on business in Los Angeles, arrived last night by airplane. He was too broken-up to make a statement. Arrangements as to the disposal of the carcass may be made today.

Was Huge Animal
Phar Lap, a huge animal 16 hands and 3 and 3/4 inches high and of dark red color, caught the imagination of western racing enthusiasts from the day he arrived in San Francisco, January 15. He was 5 years old last November but 6 years old in this country, where all race horses have a birthday the first day of the year.

He cost \$800 as a yearling, a gangling awkward animal that looked "more like a kangaroo" to quote Davis. He lived to win \$332,750 and bring his earnings second only to Sun Beau, American thoroughbred and world's biggest money-maker. Sun Beau's record is \$376,744.

Phar Lap started fifty-one times and won thirty-seven races. Fourteen of these victories were consecutive. He was the son of Night Raid, imported English horse, out of Entreaty, a New Zealand mare. He won over all courses from six furlongs to two miles. He won the Craven Stakes last September and at the same time set a new Australian record of 2:03 1/2 for the mile and a quarter.

Davis revealed he had recently turned down an offer of \$300,000 for his horse and at the same time disclosed that no insurance was carried. With him "the sporting phase was everything."

THE MYTHICAL HORSE
Chicago, April 6.—(AP)—Phar Lap, the departed thoroughbred from down under, will be the mythical horse for at least the next 20 years, Col. Matt Winn, picturesque racing leader, said today. "Anything that another horse accomplishes during the next 20 years will always bring up the question—could he have beaten Phar Lap," Col. Winn predicted. "He had caught the public fancy. His performances were honest, scandal had never touched him or his owners. He will be known as the mythical horse of the turf."

A CLEAR COMPLEXION

Ruddy cheeks—sparkling eyes—most women can have. Dr. F. M. Edwards for 20 years treats scores of women for liver and bowel ailments. During these years he gave his patients a substitute for calomel made of a few well-known vegetable ingredients, naming them Dr. Edwards Olive Tablets. Know them by their olive color.

These tablets are wonder-workers on the liver and bowels, causing a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, take one of Dr. Edwards Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards Olive Tablets—now and then to keep it. 15c, 30c and 60c.

Sports Parade

By HENRY McLEMORE

United Press Staff Correspondent

New York, April 6.—(UP)—

Does Mister Berkeley Bell of Texas know something? Or is he just a Grade A prophet from the wide open spaces?

A fortnight or so ago Bell, broad casting from the locker room of the Seventh Regiment armory where he was competing in the National Indoors tournament, announced to the world that the 1932 Davis Cup team already was picked. "Hand picked," I think, were his exact words.

Mister Bell started his broadcast while under the shower. He was indignant even then. By the time he was tying his tie, the Texas was downright mad, and his voice which rises to a keen falsetto when driven to the limit, pierced the long corridors in a manner most shrilly.

"Why," Bell said, "they (meaning the officials) know right now who is going to play. All this talk about tryouts is strictly the goggy-woggy. It's goin' to be Vines, Shields, Lott and Van Ryn, and what the rest of us do, or what we have done, doesn't matter."

As if in answer to Bell's blast the U. S. T. L. A. a few days later, put their mimeograph machine to work grinding out a very elegant handout.

This handout dealt at great length with what a mighty task it was to pick a Davis Cup team. When you finished reading it you could easily picture dozens of experts conferring, re-conferring, checking and double-checking the past performances, matching hands, tracing blood lines and reading weather reports in their effort to select the players best fitted for the job of bringing back the historic cup.

It was pointed out in the handout that the squad would probably include all those leading players available for the competition, and the basis of selection would be the playing performance of any particular player, just previous to the tryouts.

Then, then, right out of a blue sky, if I may coin a phrase, the U. S. T. L. A. gives off the names of the men who will meet in Canada in the first tie. No practice, no tryouts, no nothing. Of course the team that plays in Canada is not of necessity the one that will go abroad, but it stands a swell chance of sacking right through.

The squad named is the same as the one named by Bell under the shower, with the exception of the substitution of Wilmer Allison for George Lott, who has retired, temporarily, at least, from international play. Vines and Shields will do the singles work, Allison and Van Ryn the doubles.

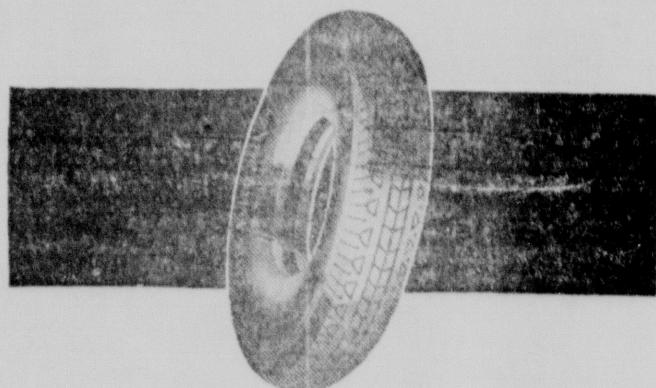

Now there's no fault to find with this layout. It's undoubtedly the best that could be picked, even if the officials spent six months separating the sheeps from the goats. But it does make Bell appear as something of a prophet or a wise guy, and the elegant handout a nice mess of goggy-woggy.

What this department can't understand is why the association doesn't come right out and say that it picks the men it thinks can do the best job, past performances to the contrary. The handout talked of picking men on the basis of their play just before the tie. Yet Vines, kicked out in the first round of a Texas tournament, was the first to be named. Sure, that's all right. Everybody knows Vines is the best player in the country. And most people will agree that Shields, day in and day out, is a better player than Mangin, despite the latter's triumph over Shields in the indoor tournament. And that no tryouts are needed to establish the fact that Allison and Van Ryn are a more potent doubles team than Bell and Mangin, say.

But why all this talk about the minute inspection of the candidates? It's all a lot of goggy-woggy.

Nearly all oysters from European waters contain copper and have a coppery taste.

GATES VULCO TIRES

Famous for a Slow Wearing Tread

The longer tires last, the better you like it.

The Gates Vulco tire is famous for its slow wearing tread. Built originally for Rocky Mountain roads, its extra tough slow wearing tread has never been surpassed. And to match the tread, Gates Vulco tires have an extra strong carcass made of patented Rubber Filled Cords.

Gates Vulco tires are doubly guaranteed. Warranted for life against defects and Insured FREE for one full year against all road injuries. If they were not slow wearing and extra tough, we couldn't INSURE THEM.

SALARY CUTS URGED UPON CITY COUNCIL

(Continued From Page 1)

a force who will serve at a salary of \$100 per month. I realize that the work of the police and firemen is hazardous and that their duties cannot be performed by every man, but the time is come when reductions must be made, and I believe that this is the time to start and from this angle, I also realize that the present taxing system is unfair and that property that should be taxed is covered up in such a manner that it is not taxed, but this fact does not excuse this council from taking some immediate action."

Mayor Dixon stated that it was quite evident that the city would not have the amount of funds available for next year as in the past and that there were certain fixed expenditures which could not be reduced, namely, water and lighting expenses which are fixed by the utilities commission. The police department, fire department, street department and cemetery he also named as fixed expenditures that must be met. He added that if a reduction was to be made that it must be applied on the salaries of the police, fire and street departments.

Commissioner George Campbell spoke briefly recommending to the council that a retrenchment program be adopted at once for a period of one year or longer if necessary on all local improvement work and in any other way possible to reduce taxation.

\$1,000 Annual Saving.
Commissioner Brooks stated that his resolution would provide a reduction amounting to approximately \$3,000 annually, and added:

"There should be a reduction amounting to between \$75,000 and \$100,000 annually in the county tax rate. There is altogether too much duplication in the handling of the county's business affairs."

The resolution was received by the council as being an advisory measure in connection with the annual appropriation ordinance and was tabled without further action being taken.

Roy Flanigan, representing the Young People's Council, requested the city council to permit the marking of certain streets in the city for the purpose of advertising the Cantrell evangelistic services, to which City Attorney Martin Gaumnond replied. He stated that there was a city ordinance prohibiting this practice and that from all published reports of the evangelistic services about two thousand were in attendance and he saw no reason for further advertising. The request was denied by the council.

George Covert informed the council of an objectionable condition prevailing at the city's dumping ground north of the city, stating that dead animals and truck loads of bad eggs from hatcheries were being hauled and dumped on the land which is controlled by him. Mayor Dixon informed the council that he would see that the practice was stopped at once.

Students In Control?
C. B. Lindell of the high school faculty, with several members of the civic class of the high school attended the council meeting. Coach Lindell, instructor of civics at the high school addressed the council, explaining a program which had been outlined among the seniors of the school to conduct a regular primary and election, beginning next Tuesday, the successful candidates to act in the various departments of the city for one day. After brief discussion the council adjourned.

CHEST SORENESS YIELDS... MUSTEROLE
to a "counter-irritant." Though relief is frequent with one application, Musterole is most effective when applied once an hour for 5 hours.

cussion the council voted to co-operate in every way to make the program a success. The plan has been tried out in several cities and has been very successful to the extent that in some cities it has been made an annual affair, for the purpose of educating the high school students in the handling of the city's affairs.

Mayor Dixon presented to the council a report which upon motion of Commissioner Brooks was filed with the request that it be published in full. The report was as follows:

Report On Finances
"To the council of the City of Dixon:

"The Statute relating to cities provides that the Mayor shall annually recommend to the Council for their consideration such measures as he shall deem expedient."

"Pursuant to that statutory requirement, I now direct your attention to questions pertaining to the city revenue and next tax levy because the next fiscal year begins April 22, and as soon thereafter as it can be prepared the annual appropriation ordinance must be passed. Hence its preparation must be undertaken at once."

"In making your estimates for the several departments, for recommendation for incorporation in the Appropriation ordinance, I respectfully suggest that the plans of each department be prepared with a single objective that they include only essential items which are indispensable to enable the city government to function adequately during the next fiscal year."

"It is imperative that the appropriation ordinance be kept within the limitations of the anticipated revenues which should be raised under a reduced tax rate wherever that is possible consistent with efficient government. I therefore suggest that the proper officials make a thorough investigation of the anticipated revenues in order that the figures may be available in considering the appropriation ordinance. Available funds probably will be lower than heretofore because of delinquencies in payments and forfeitures."

"Fortunately, this city has not been compelled to borrow funds in anticipation of the receipts of taxes. This is the exception to the general rule of city management as other cities usually borrow large sums before the taxes are collected, involving payments of large amounts for interest. It shows a wise policy which long has been the practice here and I believe it has the approval and appreciation of the people who carry the burden of taxation."

"These suggestions are made with full knowledge and appreciation of the efforts you have heretofore made to avoid unnecessary expenditures, which facts I believe are well known to and appreciated by many tax payers."

"The tax paying public demands a reduction in tax rates wherever possible. An earnest effort should be made to bring that about. Increased taxation was not so noticeable when funds coming from steady employment were available to the people, but with incomes reduced high taxes bring added dissatisfaction with government. Federal, state and local taxes are so high that the burden of sustaining the public service has become unbearable to the tax payers, and accordingly, it is our duty to eliminate any unnecessary expenses in the preparation of the annual appropriation ordinance."

"The bids for the receiving of the city garbage for the ensuing season were opened, the bid of Henry Hey in the sum of \$176 being accepted by the council."

WORLD'S TALLEST MANNEQUIN
London.—(UP)—Miss Joanne Saffell, who is joining a Philadelphia fashion store soon, is 21, a brunette, six feet, one inch in height, weighs 126 pounds, has a waistline of only 22 inches, and claims to be the tallest mannequin in the world.

MANY CLASHES FEATURE HONOR SLAYER'S TRIAL

Bitter Feeling Held By
Natives Shown By
Juryman

Honolulu, April 6.—(AP)—Court room clashes made the guilt or innocence of Joseph Kahahawai in an assault upon Mrs. Thomas H. Massie the burning question as selection of jurors proceeded today for the murder trial of Mrs. Granville Fortescue and three Navy men.

Opposing counsel disputed yesterday for the second time over whether the jury should be permitted to consider the fact the young Hawaiian was awaiting a new hearing after a mistrial when he was kidnapped and slain last January 8.

Mrs. Fortescue, her son-in-law, Lieut. Thomas H. Massie, U. S. N., and the two Naval enlisted men listened impassively as Barry S. Ulrich, Assistant Prosecutor, demanded of a prospective juror:

"Will you find the defendants guilty whether you believe they had the right to do what they did or not?"

To Settle Point
Instantly the elderly Clarence Darrow of Chicago, leader of the defense, was on his feet. "That isn't the law," he said.

Before Ulrich could retort, Presiding Judge Charles S. Davis said the question would be settled later. The court previously had ruled the guilt or innocence of Kahahawai had no bearing on the

second degree murder trial, but that failed to deter attorneys from again bringing up a point court attaches predict will form an important link in the defense.

An outspoken expression of a Hawaiian's feeling toward the defendants shocked the court room into speechless surprise for a moment.

Expressed Opinion
William Huihui, drawn as a jurymen, was questioned closely by Darrow on whether he had ever expressed an opinion of the defendants. Finally Huihui blurted out defiantly:

"I said they ought to be shot!"

He was excused. At the opening of court today a tentative jury of twelve was seated, with 22 peremptory challenges remaining to the prosecution and 23 yet unexercised by the defense.

Those in the box were six Anglo-Saxons, three Chinese, one Japanese, one Hawaiian, and one Portuguese.

Pacific Coasters Open New Season

San Francisco, April 6.—(AP)—The long trail leading to the 1932 Pacific Coast baseball championship beckoned today to the eight teams which participated in yesterday's season opener.

Opening victories went to the Oakland A's, Sacramento Senators, Los Angeles Angels and the San Francisco Seals, 1931 champions.

Oakland shut out Hollywood, 5-0. The home fans in Sacramento saw the Senators take the inaugural from the Missions, 7-3. Portland and Los Angeles put on a slugging contest. The Angels won 18-14. San Francisco started another pennant chase with a close 2-1 win over Seattle.

Opening crowds ranged from 7,100 to 10,000.

Three-Year-Olds Enter In Classic

Chicago, April 6.—(AP)—Top Flight and all her great rivals for the three-year-old championship of the American turf world have been nominated for the rich \$70,000 Arlington Classic next July. The richest stake race in the world for three-year-olds has lured 113 of America's finest thoroughbreds to the test over a mile and one-quarter. Additional nominations were expected as the closing date for nominations June 1.

Tick On, Burning Blaze, On Past, Hygro, Burgo King, Liberty Limited, Evening, Sweeping Light, Air Pilot, and Brother Joe were among those named, composing the best all-around field named in the big event, which has been run but three times. No date has been set although Arlington Park officials indicated it would take place on the afternoon of either July 8 or 12.

Sen. Lewis Invites Hoover To Chicago

Washington, April 6.—(AP)—Senator James Hamilton Lewis, yesterday urged the President to attend Memorial Day ceremonies of the Sunday Evening Club at Chicago.

The President told a delegation he would not be able to go if Congress was in session. "I told the President," Lewis said, "that personally he was held in very high esteem in my community and that I wished to personally urge that he visit us and give our people a chance to really know him."

Electric furnaces in Switzerland and France are making thousands of synthetic rubies and sapphires every year.

Government Must SPEND LESS

Omer N. Custer

Hon. Frank O. Lowden
declares:

"I know of no man in the State who, in my opinion, is better equipped in every way to serve the State in the high office of Governor than Omer N. Custer."

Custer Pledges Tax Reform

Omer N. Custer of Galesburg, candidate for the Republican nomination for Governor at the primaries April 12, says:

"The people of Illinois, from Galena to Cairo, are demanding these three things:

"Drastic reduction in the cost of all government.

"Consolidation, reorganization or abolition of overlapping or unnecessary governmental functions.

"Sweeping tax reform for the relief of overburdened real property.

"The farmer, the business-man and the manufacturer, in order to survive, have been compelled to adopt a policy

of ruthless economy and increased efficiency. Government must speedily learn the same lesson if it is to escape hopeless bankruptcy."

Mr. Custer is highly qualified for the important position of Governor.

He is a newspaper publisher, a banker, the head of several industrial enterprises, and the owner and operator of farm lands. As county treasurer of Knox County in 1906, he was the first official in the State to return interest on public funds. As State treasurer for two terms, he was honest and efficient in the administration of the duties of the office.

Never in the history of Illinois has there been so great a need for business brains in executive positions in the government.

KNOCKERS AND CRITICS WERE FLAYED TUESDAY

Evangelist Cantrell Pays Respect To Sham Christians

Again last night the great Cantrell tabernacle on West Boyd Street was crowded to capacity. As it was Sunday School night the large percentage of children present was noticeable. "This meeting is one of the most remarkable I have ever seen," announced Rev. Cantrell last night in his preliminary remarks. Most meetings have to have three or four weeks to get up the steam you folks have right now. It usually takes three weeks to get as large a crowd as you have at the beginning of your second week meeting. And these Sunday School delegations! I never saw anything like it!

There were seven Sunday Schools present last night with large delegations. The tabernacle was placarded much like a national convention of a political party, each school being to a section to itself. The Sunday School of the Church of God, L. E. Conner, pastor, carried off the honors as having the largest percentage of its membership present. The contest on attendance is based on the average attendance of the school the first three Sundays of March. On this basis there were five schools that had over one hundred per cent present. A total of 1026 were present in these seven delegations. Each Tuesday night will be Sunday School night.

"Tomorrow night," said the evangelist, "I will preach upon 'Hell and How To Get There.' I will answer that question that was handed me. 'Will women who smoke go to hell?' at that time, I could answer it now but I told you Sunday night I would answer it Wednesday night."

Patriotic Service
Next Tuesday afternoon at 2:30 is to be a patriotic service at which time Evangelist Cantrell will deliver an address upon "America. Yesterday, Today and Tomorrow." It is expected that a number of patriotic and civic organizations will attend in delegations.

The young people under the direction of Dick Choate will meet for their special work at the Christian church tonight at 6:45 and go to the service at the tabernacle in a body.

Evangelist Cantrell took his theme last night from the book of Nehemiah. His text was Neh. 4:8—"for the people had a mind to work."

"God wants workers, not knockers; helpers, not critics; builders, not a wrecking crew," he shouted to the big audience. "Some people can see Utopia only through the red spectacles of revolution. Down with everything that's up, and up with everything that's down."

The "knocker," he said, "is a two-legged animal with a corkscrew soul, a one-tube brain and a six-cylinder mouth."

Ray Harris, choir leader, led the audience, in another of those live song services.

The text of the evangelist's sermon last night was in part, as follows:

"Suppose that war were declared, we were licked and and were hurried off into captivity. Would you lose all your religion? Would you pull your old lip down over your knees and use it for a lap robe? During the World War, my! how we cursed the Kaiser. It hurt us more than it did him."

Well, 2870 years ago a young lad was carried off into captivity and he didn't lose his religion. No sir! They gave him a job picking sport model June bugs off of "tear plants" and he did it with a song in his heart. He was always happy. How do I know? In the first place God says so, and in the second place you can't get promotion going around like you just got through eating a wagon load of green apples.

"God wants you to look happy and human. He never intended for us to look like a hoot owl or a tomb stone."

God Likes Fun
"God likes a little fun. He annual appropriation ordinance made the donkey, the monkey and if you don't think they are funny just look around you at other folks, then if you don't see anything funny go home and look in the mirror and see what the other folks are laughing at."

"One time a kid ran up to an old dill pickle and asked, 'Are you a church member?' 'Nope,' came the answer. 'Just got indigestion.' 'If I were as sad as some people I'd be vaccinated. Some people are so vaccinated they look like the incarnation of a groan.'"

"We were having a hard time in a meeting that I was holding and I called for suggestions. Well up popped an old thin-faced sister. One of those chilly kind that

makes you feel like turning your coat collar and flapping your arms to keep warm. The frost commenced to blow their hands as she commenced to whine out her old frost-bitten testimony. 'We've alius wanted a revival but I guess there hain't no use,' she said, and sat down. I said, 'Does some one else have a word of encouragement?'

God Promoted
"Well, Nehemiah with religion and the love of God in his heart kept happy, worked hard and got promoted until he was head biscuit shooter for the king. That was some job in those days, when everyone was trying to bump the king off."

"Well, one day his brother came over for the week-end and Nehemiah asked how everything was going back home; how the church was coming. His brother told him how everything had gone to the bow wows; how that nobody seemed to care whether school kept open or not; how they had canned the preacher, the choir quit, and the congregation had drifted away. And the walls of Jerusalem had broken down."

"Well, Nehemiah went out and prayed. When he came into the presence of the king he was sad for the first time. The old king looked at him and wanted to know what was wrong—had his grand-ama died or had the Cubs lost another game. When Nehemiah told him the old boy handed him the royal check book and a sixty-day vacation on full pay. Well, sir, Nehemiah, with God in his heart, his sword by his side and a prayer on his lips, drew his plans, fought the enemy and rebuilt the wall and hung the gates in 52 days. When they asked him how he did it he replied in the words of my text, 'The people had a mind to work.'"

Work Wins
"The people had a mind to work. If you want a crown you have to work. God knows you need salvation but he won't send the angels to cram it down your throat. They tried it once in Sodom and it didn't work. God knows you need crops but won't come down and pull the plow."

"God expects us to do something. When Jesus came to the tomb of Lazarus he said, 'Roll ye away the stone.' There are many stones for the church to roll away before God gives us spiritual resurrection. Roll away the stone of pride. Many of us are like the old fellow who said, 'Yesterday the Lord sent a cyclone and blew away my straw stack, then the lightning burnt up my brush pile, now I'm waiting for the Lord to send along an earthquake to shake the taters out of the ground.'"

"They worked with a boxing glove on one hand and a trowel in the other. Yes sir, my friends, we have to fight and work every step of the way."

Preachers Need Help
"The preacher can't build up a great work unless the people have a mind to work." In Exodus 17:12 as long as Aaron and Hur held up the hands of Moses they licked the enemy to a frazzle. Each of you are the pastor's helpers. Did you come off your knees to church or did you come to criticize? Some people never do anything for the Lord because they are mad at the preacher. Getting mad at the preacher is like riding on a pass. Ask them why they don't go, don't pay, and they will tell their old eyes and say, 'Mad at the preacher.' Don't go around while I'm here and tell me why you don't come. I know why. If there were a hundred bucks in it every time you made it you'd never miss a service if they had to carry you in. If you don't come to service with a prayer for the preacher there is something wrong with your religion. I don't give a rap what you or anybody else says if you don't do what God says, you are going to hell and that's all there is to it."

Knockers
"Oh, you'll have knockers. Nehemiah had 'em. If there were no body knocking this revival I'd go see a doctor. I'd think there was something wrong with me. A knocker is a two-legged animal with a barb wire soul, a one-tube brain and a six-cylinder mouth. I'd rather be a maggot in a pole cat than to be a knocker. Some people gag at a gnat and some a camel. Some of the dear folks shudder at a little slang in the pulpit and cuss like a pirate at home."

"Some people are so opposite they are like the old boy who said, 'I don't know what they are votin' for—but I'm agin' it.'"

"There was an old bird like that where I preached. He wanted me to know that he approved of nothing. Well, sir, when I got up to preach that old dill pickle stamped out. His face was the picture of hate. Looked like a tom cat at a bull dog convention. I wondered what was wrong; the basic principle. Later I found out. I was the only preacher that ever kept that old knot awake and he was mad."

"God wants workers, not knockers; helpers not critics. Some people can see Utopia only through the red spectacles of revolution. 'Up with everything that's down and down with everything that's up,' is their motto."

Sacrifice
"It takes sacrifice to build God's

kingdom. See what Moses did but look at the sacrifice he made. No wonder. Look there he stands in Pharaoh's palace deep in meditation. The door opens swift feet glide across the marble floor. A small arm goes up and around his shoulders two eyes gleaming with admiration and pride look into his. 'Father promises me,' whispers a small feminine voice, 'that you shall be the next Pharaoh of Egypt.'"

DEMOCRATS IN HOUSE OUSTED REP. GRANATA

Used Their Majority To Declare Kunz Congressman

Washington, April 6.—(AP)—A decision which brought to a stop the congressional career of Peter C. Granata of Chicago, gave the Democrats of the House today a full vote lead over their Republican enemies.

Mr. Granata was voted out and Stanley H. Kunz was voted in by the House yesterday. It was a decision on an election contest brought by the latter, the Democratic congressional candidate of the Eighth Illinois district, against the Republican who had been seated at the outset of the session on the strength of his certificate of election.

The standing of the parties in the House now is: Democrats 221; Republicans 221; Farmer-Labor 1; vacancies 2.

The members discussed the matter four hours, held a number of votes as preliminary skirmishes on the issue, then turned down 189 to 170 a resolution to declare Granata elected. Immediately after, the members proceeded without the formality of a count to order Kunz's seating. Yet the issue had not been in doubt since the beginning, for the Democrats had lined up solidly for their man.

Oklahoma may furnish the other side of the same test shortly. Charles O'Connor, Republican, is seeking to out Representative Disney, Democrat, of the First district. An Elections committee was to vote on the issue today, reporting to the House for a final decision.

Brief Summary of Last Night's News

By The Associated Press

DOMESTIC:

Newark, N. J.—Bishop Cannon warns both political parties that wet plans arouse dry opposition.

Milwaukee, Wis.—LaFollette progressive Republicans apparently beat regulars in primary; Roosevelt Democrats distance opposition; Mayor Hoan is re-elected.

Hopewell, N. J.—Indications point to a climax in the search for the kidnapped Lindbergh baby.

New York—American Civil Liberties Union to send group into Kentucky coal fields to test rights of non-residents.

FOREIGN:

Dublin, Irish Free State—Cosgrave party announces opposition to abolition of oath and land annuity payments.

Shanghai—Chinese boycott prevents opening of Japanese cotton mills.

ILLINOIS:

Chicago—The Chicago, Rock Island & Pacific Railroad announced the running time of its crack train, the Apache, running between Chicago and Los Angeles will be cut to 61 and one-half hours, a reduction of three hours and 20 minutes.

Chicago—W. H. Bowler, Executive Secretary of the Board of Missionary Cooperation, reported to the executive committee of the Northern Baptist Convention a decrease of nine per cent in income for the year ended February 29.

PERFECT LODGE MEETING

Boston Mass.—(UP)—John I. Marno hasn't missed a meeting during his 55 years service as secretary of an East Boston Masonic lodge.

Bilious/NR

CONFIDENCE IN ILLINOIS BANKS BEING RESTORED

Backing Of The Finance Corporation Reassures Patrons

Chicago, Apr. 6.—(AP)—Confidence in the soundness of Illinois banks has been practically rehabilitated as a result of the workings of the Reconstruction Finance Corporation, Wayne Hummer of LaSalle, Ill., chairman of the Illinois advisory committee of the corporation, said today.

"The very realization that banks can come here and get the cash to carry them over the tough spots seems to have obliterated the need for such aid," he added. "The public knows that the Reconstruction Finance Corporation supplies a definite and certain assurance of the solidity of its banks and it has stopped making the runs which have resulted in so many closings."

"For instance, when we opened up here and began to organize, we set up a machine intended to meet serious emergencies. Yet it has been called only once or twice for such work. All our functioning has been done at the normal rate of every-day business, because the mere knowledge of our existence has been enough to stop abnormal drains on the banking structure."

Figures Are Proof
Mr. Hummer pointed to figures compiled by the Illinois Bankers' Association on bank closings:

1931—237 closed, 17 reopened.
1932—January: 70 closed, two reopened.
February: 13 closed, three reopened.
March: one closed, five reopened.

The net loss since January 1, 1931, is 264; there were 1,088 banks in operation, 1,088 and 108 in Chicago, Feb. 15.

"As a matter of fact," Mr. Hummer continued, "some of these banks would have been closed in any case, due to injudicious management, and it is better that they are gone. These have been comparatively few, however; the tragedy is that they carried a number of sound banks with them."

Between 75 and 100 loans have been approved by the committee, which has jurisdiction over down-state Illinois north of a line below Quincy and Springfield. Southern Illinois is in the St. Louis district. Chicago has its own committee. One or two of the loans were for insurance companies, the others for banks.

Last week Howard M. Sims, agent for the seventh Federal re-

serve district, revealed that a third of the 750 loans so far made had come to that district. This suggests that northern Illinois has received one-ninth of the national total, probably between \$20,000,000 and \$30,000,000. The state's banks made up about one-twentieth of the national total.

Rich Galesburg Spinster Beaten

Galesburg, Ill., Apr. 5.—(AP)—Miss Addie Carey, 68-years-old lives alone on a 160-acre farm. She is reputedly worth \$100,000.

Last night, three robbers, garbed as policemen and wearing stars entered her home, bound and gagged the aged spinster, tied her to the kitchen sink and threatened to burn her unless she told them where her money was hidden.

Miss Carey told the robbers her money was all out on interest. After wrecking the interior of the house looking for money, the robbers left. Miss Carey was found in a weakened condition by a neighbor this morning.

She had a similar experience with robbers some years ago.

Record Crowd Saw Bowling Last Eve

Detroit, Apr. 6.—(AP)—A new "five" standings of the team event in the American Bowling Congress tournament.

Scoring games of 974, 1008, and 985, the Hi-Speed Gas five, one of Detroit's crack ten pin aggregations, moved into fourth place late last night when they hung up a 2,967 series.

The largest crowd ever to witness an American Bowling Congress tournament turned out to watch the Detroiters make their heaviest bid for team honors. Nearly 6,000 persons jammed the big fair grounds coliseum.

Maple Leafs Off To Flying Start

New York, Apr. 6.—(AP)—The Toronto Maple Leafs, the "almost team" of the National Hockey League for the past two or three seasons, are off to a flying start on the final lap of their race for the Stanley Cup, a trophy they never have succeeded in winning.

The Leafs began their first final series for the emblem of world supremacy in professional hockey by turning back the New York Rangers 6 to 4 last night in the first of a five game series to decide the winner.

BULL'S HORNS SAVED HIM

Ovington, Northumberland, England.—(UP)—John Woodman, a 90-year-old farmer, who was attacked by a bull, clung to the beast's horn until he was rescued.

RIFLEMEN FROM ROCKFORD TAKE MATCH LAST EVE

Defeat Dixon And Mount Morris Teams In Contest Here

Rockford last night made the highest score, 919 out of a possible 1000, ever shot in this section of the state, beating both Dixon and Mount Morris in a three-way rifle match held in Dixon. The competition was of the very best, and the Dixon club itself shot a record breaking score, 907, out of a possible 1000, that would be a record in this locality except for the one made by Rockford. Mount Morris also shot very well.

Each team placed seven men in the lineup, except Dixon, who had nine men, but of these the scores of only five counted against both Rockford and Mount Morris. Two more counted against Rockford only, and the remaining two counted against Mount Morris only.

The course of fire was ten shots prone for each man on one target and five shot kneeling and five shots standing on another. The five high men on each team counted for record score.

The Dixon club is out for vengeance now. They will go to Rockford Tuesday, April 12, for the return match, fully determined to win.

The scores for last night follow:

	Dixon	Prone	Kneel.	Stand.	Total
Chapman, Dwight	95	86	181		
Koeke, O. F.	98	86	183		
Harvey, W. R.	99	80	179		
LaCour, Arnold	96	84	180		
Wagner, Raymond	99	84	183		
Total	478	420	907		
	Rockford	Prone	Kneel.	Stand.	Total
Linder, M.	98	87	185		
Pfautz, F.	98	78	176		
Koontz, B.	95	94	189		
Linder, A.	100	91	191		
Peterson, H.	99	79	178		
Total	490	429	919		
	Mount Morris	Prone	Kneel.	Stand.	Total
Franklin	95	90	185		
Avey	96	87	183		
Paul	89	75	163		
Barney	88	76	164		
Total	461	394	855		

SPORT BRIEFS

Chicago, Apr. 6.—(AP)—Jack Kilbourne, Australian middleweight, has been matched to meet Haakon Hansen of Norway in a 10 round bout at White City, Chicago, April 11.

South Bend, Ind., Apr. 6.—(AP)—Coach Hearty "Hunk" Anderson will conduct a coaching school at Notre Dame June 20 to 30, assisted by Marchmont Schwartz, a basketball school will be directed at the same time by Coach George Keegan.

Aurora, Ill., Apr. 6.—(AP)—Exposition Park will run seven races daily with no purse less than \$700 during the 18-day turf season, starting May 2. The daily purse distribution will total \$5,500 except on Saturday when it will be hoisted to \$6,000.

The average daily program calls for three races at \$700, three at \$800 and one at \$1,000.

Chicago, Apr. 6.—(AP)—Willie Hoppe was in front with three straight victories today in the all-star five-handed three-cushion billiard tournament.

The veteran 182 ballkicker defeated Augie Kieckhefer, world's champion, 40 to 35 in 36 innings, and followed up by edging out Welker Cochran, 40 to 35 in 32 innings, to break the first place deadlock and take the lead yesterday.

Kieckhefer and Cochran were tied at two victories and one defeat each. Earl Lockabaugh had but one victory in four starts while Arthur Thurnblad, former world's titleholder, had three setbacks in as many starts.

By WILLIAM BRAUCHER

Earl Averill, the Indians' imperturbable center fielder, will hit 36 home runs this year. His batting average will be somewhere between .330 and .340. If on the last day of the 1932 season, Earl Averill, going to bat for the last time, finds himself with only 35 home runs, do you know what he will do? Certainly! He will hit a home run.

Each year since 1928 when he came to the major leagues from San Francisco, Averill has sat down with the boys before the season started and told them just what he intended to supply the management in the way of a batting average and home runs. And each year he has delivered almost exactly what he predicted.

Thus, when he says he will smack 36 homers this year and hit between .330 and .340, you have to believe him. He's that kind of a guy. He wouldn't fool you.

A SWELL FORECASTER—

Before the season of 1929 officially opened, Earl Averill promised the Cleveland scribes that he would hit 320 and set a new home run record for Cleveland. That year he hit 330 and drove out 18 home runs.

On the eve of the opening of the season, 1930, "The Rockhead," as he is affectionately called because of his nonchalance, predicted he would break his own mark of 18 homers and would hit for a better average than he had the year before. With the end of the season only a few days away, Averill had whacked only 14 homers. So he made four in a double-header and, on the very last day of the season, drove out his 18th. And he hit 330.

Last year about this time the boys were skeptical when Averill told them, in his matter-of-fact way, that he would maul 30 homers in 1931, and that he would bat pretty close to .330. It appeared the young man was letting his confidence run away with him. But the end of the season found that he had hit 32 home runs and his batting average was .333.

How are you going to bet against a guy like that.

On the eve of the opening of the season, 1930, "The Rockhead," as he is affectionately called because of his nonchalance, predicted he would break his own mark of 18 homers and would hit for a better average than he had the year before. With the end of the season only a few days away, Averill had whacked only 14 homers. So he made four in a double-header and, on the very last day of the season, drove out his 18th. And he hit 330.

Last year about this time the boys were skeptical when Averill told them, in his matter-of-fact way, that he would maul 30 homers in 1931, and that he would bat pretty close to .330. It appeared the young man was letting his confidence run away with him. But the end of the season found that he had hit 32 home runs and his batting average was .333.

HE HIT TOO MANY—

One of the correspondents accosted Averill just before the team left New Orleans for the north.

"You told me you would hit 30 homers last year," said the baseball writer. "And then you crossed me up by hitting 32."

"Well, I've thought about that myself," the Earl of Averill replied. "But lemme tell you how it happened. I just got my 30 about the middle of September. I am all set to relax when we get into Boston."

"I am playing fan-tan in the clubhouse one day when Lisbee, the pitcher comes in and starts to rib me about never hitting a home run in their ball park."

"Well, I lose my head for a minute and holler back at Lisbee. 'You go back and tell your pitchers to look out this series. I'm going to start swinging from the hips.' We're playing a double-header that day, and in the first game I get the 'horse-collar'."

Well, who pitches the second game but Lisbee. So I put a couple in the bleachers.

"I shouldn't 'a' done it. I know, but you know how it is when you get sore. Anyway, I learned my lesson. This year it's 36, and not 35 or 37."

On the eve of the opening of the season, 1930, "The Rockhead," as he is affectionately called because of his nonchalance, predicted he would break his own mark of 18 homers and would hit for a better average than he had the year before. On the eve of the opening of the season, 1930, "The Rockhead," as he is affectionately called because of his nonchalance, predicted he would break his own mark of 18 homers and would hit for a better average than he had the year before. With the end of the season only a few days away, Averill had whacked only 14 homers. So he made four in a double-header and, on the very last day of the season, drove out his 18th. And he hit 330.

Last year about this time the boys were skeptical when Averill told them, in his matter-of-fact way, that he would maul 30 homers in 1931, and that he would bat pretty close to .330. It appeared the young man was letting his confidence run away with him. But the end of the season found that he had hit 32 home runs and his batting average was .333.

How are you going to bet against a guy like that.

On the eve of the opening of the season, 1930, "The Rockhead," as he is affectionately called because of his nonchalance, predicted he would break his own mark of 18 homers and would hit for a better average than he had the year before. With the end of the season only a few days away, Averill had whacked only 14 homers. So he made four in a double-header and, on the very last day of the season, drove out his 18th. And he hit 330.

The Eskimo; Guardian Of Last Frontier

Washington, D. C.—The Eskimo, according to dispatches from the Far North, is slowly changing. Each year more and more of these remote guardians of the last frontier are adopting white man's ways.

In Alaska and western Canada many Eskimos have broken away from hunting and fishing to meet personal food and clothing wants and have become trappers and traders. In Greenland and northern Labrador the Eskimo has clustered around the mission stations, adopting the white man's style of house, rather than sod huts, igloos and skin tents, and bartering skins for the white man's canned foods, firearms, clothing and phonographs.

First "Americans"

"The Eskimos were the first people met by Europeans on American shores, but they are still among the least known, and certainly the least seen, of all native American tribes," says a bulletin from the Washington, D. C. headquarters of the National Geographic Society. "Scandinavians came in contact with Eskimos in Greenland and in Labrador in the tenth and eleventh centuries. Since that time the Eskimos' main contacts with the white man have been through explorers, missionaries, police officers, and occasional trappers and prospectors."

"Eaters of Raw Fish"

"The name Eskimo is said to have been given by Biard in 1611 (in the form 'Excomminguois'). It means 'eaters of raw fish.'"

Considering their limited numbers, the Eskimos cover a tremendous range. The total Eskimo population of the world has been estimated at only 35,000, but Eskimo villages can be found here and there throughout the coasts of Arctic America from eastern Greenland and northern Labrador to the westernmost parts of Alaska, and even on the tip of Asia across the Bering Strait.

Throughout this distance, more than 5,000 miles, the Eskimo speaks one language, a strange tongue which requires a vocabulary of 10,000 words. As in Chinese, inflection is very important. Few outsiders learn it, although a "pidgin English" has sprung up which some explorers and missionaries mistake for the Eskimo language.

Live on Birds, Etc.

"Nearly all Eskimos live on or near the coast because they get most of their food from the sea. They raise no vegetables, supplementing their meat diet in summer with wild berries and roots. In summer they hunt land animals and birds, and in the winter they live on sea mammals and fish."

"Where least affected by the white man's civilization—along the Arctic coast of Canada and in the islands north of Hudson Bay—the Eskimo is perhaps the healthiest and happiest person on earth. The village is the largest social unit. There are no chiefs or rulers. Leading men have influence but no authority. Large animals caught are shared with others, and personal property is secure, for one tribe never makes war against another. Along many of the inlets of the Northwest Territories in Canada the Eskimo still hunts with bows and arrows, and harpoons, in little skin boats, or kayaks."

"While snow houses, or igloos, are always associated with Eskimos, about half the Eskimo world does not know them at all. Igloos are almost never used in Labrador or in Alaska. Where the white

Manufacturer's Death Stirs Inquiry Into Radium Water

The death of Eben M. Byers (upper right), allegedly from poisoning caused by the drinking of radium water, has stirred a widespread investigation of radio-active "cures." Attorney Robert H. Winn (left) of the Federal Trade Commission is conducting an official inquiry into the trade activities of the manufacturers of "Radithor," a radium water product shown (lower right) in bottled form.

man's frame house is not obtainable the native Eskimo lives in a dugout covered with sod, the roof being supported by poles or animal bones. In the summer the skin tent, or tupic, is used, particularly while on hunting forays.

No Iron and Little Wood

"The igloo, perhaps the most unusual of all dwellings, is made of blocks of snow, with a clear piece of ice for a window. Beds and benches are of ice, with warm furs on top. A shallow pan made of stone or iron, shaped somewhat like a dustpan, is used for a lamp or stove. Along the flat side is a dry mugs for a wick. Inside the pan is seal oil. The cooking kettle is suspended above the pan. Iron kettles and pans are of recent use, and are acquired from the white man, because the Eskimo has no iron, and very little wood."

"In Greenland and Labrador Eskimos have known white men for nearly 900 years, but there are still in some parts of the Arctic, Eskimos who have seen only an occasional explorer. White men's diseases have killed more than two-thirds of all Eskimos since the first contacts with them, but the population is now about stationary."

"Except in Alaska, Eskimos do not live along regular steamship or tourist routes. The Eskimo seldom can be induced to leave his northland, and the few who have been lured away have returned as quickly as possible."

Daily Health Talk

VITAMINS AND DISEASE

The study of vitamins and their relation to disease and disease prevention, as well as to the normal development of the human body, is of relatively recent origin.

There is much conclusive information concerning vitamins, as

well as half-established conclusions which ought to be accepted with reservations.

A lack of vitamin A—found in butter, cod liver oil, milk, milk foods, eggs and spinach—in the dietary has been known to lead to the development of the condition known as xerophthalmia, an eye disease.

In this condition it has been found that the tissues of the eye and neighboring regions undergo a degenerative change which permits an easy invasion of bacteria and subsequent infections.

Mellanby and Green have found that rats kept on a diet of good quality with respect to all other known dietary factors, but lacking vitamin A, develop infections and die.

These infections involve the eye, tongue, lungs, ears, nasal sinuses, the genito-urinary tract and other portions of the body.

They also found that when the diseased animals, if not too far advanced, were subsequently fed a diet rich in vitamin A, they recovered.

On the basis of these experiments they called vitamin A the anti-infective vitamin.

Then they instituted a study to show the infection preventive values of a diet rich in vitamin A when applied to pregnant women.

Two hundred and seventy-six such women were given a diet rich in vitamin A during the month before birth of the child and their experience was compared with a like number of women who had not been subjected to special care.

It was found that puerperal sepsis or infections associated with delivery was prevalent in but 1.7 per cent of the women fed a diet rich in vitamin A as against 4.7 per cent in the other group.

The photo-electric cell is being used by scientists at Canisius College Seismic Observatory in Buffalo, N. Y., to detect earthquakes.

PEOPLE'S COLUMN

WAR ANNIVERSARY

In commemoration of the fifteenth anniversary of the United States entry into the World War, the nation will remember its young manhood that it hurried into the great conflict on April 6th, 1917. Countless thousands of these veterans who saw their comrades make the supreme sacrifice, fighting to maintain our institutions and preserve American freedom and keep unsullied our noble flag, under whose folds life, liberty and the pursuit of happiness are guaranteed against any enemy whatsoever.

We will on this forgotten day pause for a few brief moments from our daily work, from the most humble workman in the land, to the highest, that we may rededicate ourselves, to honor our buddies who by their disabilities are still suffering the horrors of war, and from our comrades who made the supreme sacrifice we again

hear their voices saying in these words: "Take up our quarrel with the foe, To you from failing hands we throw the torch; be yours to hold it high. If ye break faith with us who die, We shall not sleep, though poppies grow in Flanders field."

NACHUSA ITEMS

By R. W. Clark

NACHUSA—Mr. and Mrs. Wilbur Hoff and daughters of Hollywood, Ill., spent the week end at the home of Mr. and Mrs. John Hoff.

Mr. and Mrs. Harry Weigle entertained Mr. and Mrs. Charlie Moats and daughter of Nelson at dinner Sunday.

Mr. and Mrs. R. W. Clark and

sons Edgar and Arland returned home Thursday night from Kim-mell, Ind., where they were called on account of the death of their brother-in-law.

The Loyal Workers S. S. class met at the Orphanage Tuesday afternoon.

Mrs. Lizzie Hoff celebrated her eighty-eighth birthday anniversary Sunday.

Mr. and Mrs. R. W. Clark and son Arland, spent Sunday evening at the home of Mr. and Mrs. Le-land Brink.

Mrs. Fannie Wolf and daughter Mary, Harold Wolf and Edna Wolf spent Sunday at the home of Mr. and Mrs. Roy Spratt of northwest of Ashton.

POLO NEWS

By Kathryn Keagy.

Mr. and Mrs. Donald Typer of Chicago spent the week end with the formers parents, Mr. and Mrs. William Typer.

Rev. Carl Kammeyer, pastor

of the local Lutheran church delivered a Washington address at the Ogle county Federation of Women's club conference held at Mt. Morris Tuesday afternoon.

Mr. and Mrs. Frank Wellows and daughter Gaythre of Rockford spent the past week with relatives.

Mrs. Harold Cross and children who spent the past several days with the formers parents, Mr. and Mrs. Frank Niman, returned to their home in Glen Ellyn Friday.

Mrs. Robert M. Brand received word the latter part of the week from Pasadena Cal., informing her of the death of her brother-in-law T. E. Telfer. Mr. Telfer had visited here on numerous occasions.

Russell Sherwood of Chicago spent the past several days here on business.

Rev. Carl Kammeyer will address the Hi-Y girls at the Polo high school Monday afternoon, April 11 at 3 o'clock.

The Lutheran pastors from the northern conference of the Synod of Illinois will, exchange pulpits Sunday, April 10 for the purpose of presenting the cause of "Mizpah Mission in St. Louis." Rev. J. Ed-

win Dale of Oregon will occupy the Polo pulpit and Kammeyer will occupy the Oregon pulpit.

The regular monthly church night supper of the Lutheran church will be held Wednesday evening at 6:30. The program will begin at 7:30. Rev. Kammeyer and Rev. H. A. Wolfe will be the speakers and music will be furnished by the orchestra. The program will be in honor of the newly received members.

Mrs. and Mrs. Leroy Rebusch moved last week into the C. R. Clothier property on North Division street.

The young ladies of St. Mary's church will sponsor a card party at the American Legion hall Monday evening, April 11.

JAP OYSTERS TO BE PLANTED

Aberdeen, Wash. (UP)—Two hundred cases of oysters, or about 3,000,000 if counted, will be brought here from Japan and will be consigned to the north and south side of the bay. Eighteen million oysters will be ready for harvest this fall.

In 1930

New Iso-Vis Motor Oil introduced with laboratory tests proving it will not thin out from dilution, gives little carbon and lubricates at extremes of temperature.

In 1931

New Iso-Vis Motor Oil demonstrated these same qualities in tests made by the American Automobile Association on the Indianapolis Speedway and in Zero Cold Rooms.

Now 1932

These Reporters to bring you Interesting Stories from lips of Iso-Vis Users

"GET THE FACTS." That was the order that went to our research laboratory people in 1930 and to the American Automobile Association in 1931. "Get the facts about lubrication requirements and how Iso-Vis (a Standard Oil product) meets them."

"Get the facts." Again this year that was the order. But this time it went out to skilled news writers, trained for years to "get the facts" of human activities. "Who are the people who are using Iso-Vis Motor Oil?"

"Are they satisfied?" "How do their cars perform?"

And so Mr. Casey and Miss Lane have been up and down the length and breadth of our territory, finding Iso-Vis users everywhere and "getting the facts" at first hand. Professor Davidson, a specialist in Agricultural Engineering, has been interviewing farm users of Standard Oil lubricants.

Now, you'll enjoy reading these colorful sketches. Look for them.

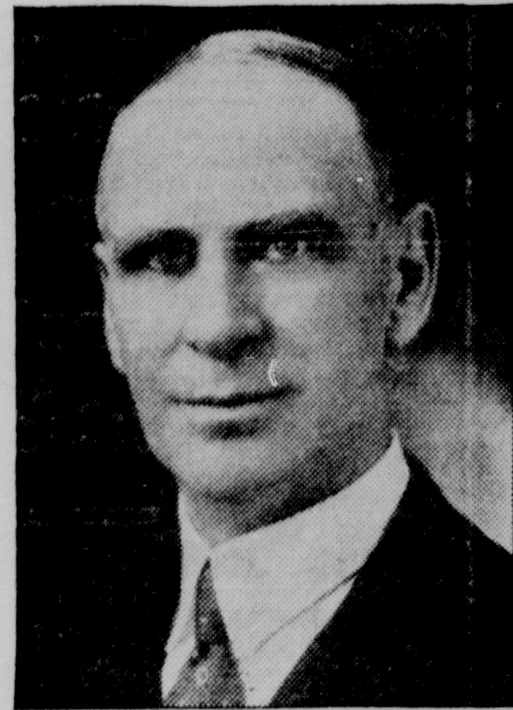

ROBERT J. CASEY
Reporter, The Chicago Daily News

A reporter for 20 years and wartime captain of artillery, he is also noted as a world traveler and author of a dozen books of which the latest is "Easter Island." Mr. Casey interviewed the men users of Iso-Vis whose stories will appear during the year.

MARGARET LANE
Feature Writer, International News Service

Daughter of the editor-in-chief of the Northcliffe papers in England, she is now on a six months' leave of absence from the staff of the London "Daily Express." Miss Lane has interviewed women users of Iso-Vis.

J. BROWNLEE DAVIDSON
Professor of Agricultural Engineering, Ames, Iowa Agricultural College

Professor of Agricultural Engineering at Iowa State College, internationally recognized in designing and perfecting farm equipment, his interviews with farmers will appear in leading farm papers.

JUDGE HENRY HORNER for GOVERNOR

Endorsed by the Democratic State Central Committee

Judge Henry Horner pledges fullest protection for bank deposits through strengthening our State Banking Laws.

Judge Horner's record is the best proof that he can and will make good this pledge. His experience makes him the man for the job. As Judge of the largest Probate Court in the United States administered by one man, he has directed the investment of millions of dollars for rich and poor alike, without loss. Illinois needs an executive of this type as Governor.

STATE CANDIDATES

United States Senator	Governor
WILLIAM H. DIETRICH	HENRY HORNER
Lieutenant-Governor	Auditor of Public Accounts
THOMAS F. DONOVAN	EDWARD J. BARRETT
Secretary of State	State Treasurer
EDWARD J. HUGHES	JOHN C. MARTIN
Representative in Congress-at-Large	Representative in Congress-at-Large

Wild Ducks Face Extermination

Washington, April 6—(AP)—Harry S. New, former Postmaster General, told the special Senate committee on wild life resources there is no doubt of a diminution in the number of wild ducks. Unless a nationwide system of water fowl refuges is established, New said, the ducks will go the way of the wild pigeons. He urged Federal licenses to finance the refuges. Rio de Janeiro has opened its first automatic restaurant. 8213

How New York Marked Army Day

It was Army Day in New York, and 1,600 men, women and children marched along Fifth Avenue in a preparedness parade. The upper picture shows crowds jamming the sidewalks to witness the spectacle while military and naval units and veterans' organizations marched by. Below John J. Pershing (right) and Major General Dennis E. Nolan, commander of the Second Corps Area, are pictured in the reviewing stand.

NEWS OF CHURCHES

IMMANUEL LUTHERAN CHURCH

Evangelist Philip Sidersky is to give a realistic demonstration of the Jewish Passover tonight at 7:30 at the Immanuel Lutheran Church, corner Highland and Sixth, A. G. Suechting, Pastor. Mr. Sidersky is a lecturer of note. On Thursday evening at 7:30, Mr. Sidersky will speak about his conversion. This lecture will be especially noteworthy for all Gentiles who are interested in how a Jew found Christ. We also extend a special invitation to our Jewish friends throughout the city and its vicinity to hear Mr. Sidersky.

"All who saw and heard Philip Sidersky present his Passover Service have a more adequate conception of the Passover and its meaning than they have ever had before. Who will ever forget the vacant chair at the head of the table, the hidden loaf and the cup of blessing, never used by the Jews today, but set apart for the Coming One?" —Dr. H. A. Ironside in the Moody Church News April 1931. Evangelist Sidersky was born and reared in Vilna, Russia, the center of Jewish learning in Europe, and is versed in several languages. He has been active in preaching the Gospel to the Jews

for many years, and has been translating Gospel Messages in Yiddish and Hebrew languages, and has written several articles on this subject for various magazines.

Everybody is cordially invited to attend this service.

Kansas Prisoners

Taken In Zearing

Kewanee, Ill., April 6—(AP)—Eugene Wheeler and Albert Ball, Negro, escaped convicts who wore numbers 2391 and 2534 at Kansas state penitentiary, Lansing, Kas., were captured by Bureau county officers Tuesday on an eastward bound Burlington freight train at Zearing. They had boarded the train at Galesburg. Tom Bell, an itinerant, noticed prison garb under their coats and notified the Sheriff at Princeton. Deputies Flaherty, Grose and Wright raced the train from Princeton to Zearing and captured the pair. Wheeler was serving one to five years for grand larceny and Ball one to five years for bigamy.

Fugitive Woman

Ran Into Trouble

New York, April 5—(AP)—Sarah Pastore 35, whose record shows many aliases and arrests in thirteen cities, ran into a double menace in Brooklyn courts today. First she faced a homicide charge growing out of an accident three weeks ago in which her automobile killed a child in front of a Brooklyn

the man HUNTERS

BY MABEL McELLIOTT

BEGIN HERE TODAY

SUSAN CAREY, 19 and pretty, discourages the attentions of a moody young man, BEN LAMP-MAN. She is charmed by the friendship of ROBERT DUNBAR, young millionaire who attends the same downtown shorthand school as Susan. Dunbar comforts her one day when she runs away from a would-be employer, who becomes affectionate. ERNEST HEATH, architect, employs Susan as a temporary secretary. She is delighted at the thought of securing her first job. MRS. MITCHELL, a friend, apprises Susan and all modern girls because of their insistence on entering business.

NOW GO ON WITH THE STORY CHAPTER VII

"HULLO, there!" A throaty voice challenged Susan next day as she sat alone in the small outer office. Looking up, she met the exaggeratedly long lashed brown eyes of a small blond girl in a skin tight frock of violent green.

Girl, frock, makeup, all were calculated to arrest the eye of the beholder. Susan frankly stared. The blond hair was a tumbled mass of ringlets (a "permanent" of dubious origin). A heavy, penetrating perfume emanated from the small person of the newcomer like a tangible essence.

In the same husky mid-contralto the stranger continued. "Gotta sheet of carbon around that isn't workin'? I've just worn out my last one and I've gotta leave to make out in duplicate."

Susan smiled. Now she knew where she had seen that dandelion head before! Bending over the typewriter in the office across the way.

She rose to get the carbon sheet, hoping as she did so that if Mr. Heath happened in he would not mind this artless interchange of courtesies.

"Thanks a lot!" The yellow haired girl fluttered her mascaraed lashes. "Do somethin' for you some day. My name's Flannery-Ray." She gestured to the door across the hall, lettered blackly "Mayne & Mayne, Real Estate."

"Have lunch with me some day," she offered hospitably. "I'll be on the nose bag together. Know a good place down on Adams street."

Susan said "All right" and the Flannery girl was gone as swiftly and suddenly as she had appeared.

For the next few days Susan was too busy learning the routine of the new office, finding out where supplies were kept, typing Mr. Heath's scholarly letters and reports and shyly asking questions of the rather crabbed young bookkeeper to make any overtures of friendship toward Ray Flannery.

ON the second Monday the chrysanthemum-locked Miss Flannery appeared again. Susan was just leaving, properly hatted and gloved, for lunch at the exact moment the Flannery girl emerged from the door of her office.

"Hello!" Raspberry tinted lips parted in a smile which flashed dazzlingly like that of the beauties of the toothpaste advertisements.

Susan smiled shyly in return. Ray Flannery was dressed this day in a shade of yellow even more startling than that of her amazing air. The dress, even as the green one, fitted her rounded figure with utter frankness.

"Eating alone?" inquired the vision, casually linking her arm in Susan's. Instantly (Susan did not know quite how it came about) it was arranged that the two girls should lunch together.

Over their combination sand-wiches and chocolate malted milks, Susan discovered (a) that Ray Flannery had wanted to be a tap dancer had once won a dancing

"Have lunch with me some day," Ray offered hospitably.

contest, and longed to be on Broadway; (b) that she lived with her mother and brother in the Wilson avenue district; (c) that the boys were all crazy about her, though she didn't know why; (d) that she liked Susan.

"I'm like that," Ray confided artlessly. "First thing I can always tell whether I like a person or not. That crab who worked at Heath's before you came—what did you say her name was, Sullivan? O'Brien?—well, anyway, she was a pain. Couldn't stand her. Always wore low heeled shoes and hair nets. Can you beat it? Hair nets! Musta come out of the ark."

Susan murmured that the luckless woman had undergone an operation and might return to her post shortly. "hope she chokes," Ray Flannery said cheerfully, disposing of the last bit of sandwich. Ray's fingernails were so long and so brightly tinted her companion could not stop looking at them.

She rambled on. "My boy friend gave her a look one night when he came for me and he says, 'Holy cat, he says, 'Where did she drop from? Who dragged her in?' he says. I thought 'd die!'"

Ray gave Susan a sly, penetrating look. "What's your boy friend's name?" she asked.

SUSAN colored, stammering that she had none. The Flannery girl shrugged unbelieving shoulders. She seemed offended.

"Don't tell if you don't want to," she said elegantly. "Some people are funny that way. As Mom always says to me, 'You blat every thing right out,' she says. And I do. Friendly like a pup, that's me."

Susan hastened to mend the breach. "Honestly, I haven't got one," she insisted, baring her throat to make the Flannery girl's on.

Ray still looked mildly incredulous but she dropped the chilly dignity in which she had a moment before enveloped herself.

"I don't believe it!" She eyed the other girl suspiciously, took in the crisp, dark waves of hair pressed down by the small white hat, the peachblow color that came and went in Susan's round cheeks.

Susan laughed gayly. "It's a fact!" she cried. The other girl's attitude cheered her. She couldn't be so bad, after all!

Ray Flannery gave her rosebud mouth an extra coating of lip salve, and looked up.

"Maybe you haven't got S. A.," she murmured thoughtfully. "You seem real cute looking to me but maybe that's it. Ever try purple eyeshadow?" She proffered the pencil she was now employing on her upper lips.

Susan drew back and then, anxious not to wound the sensitive Miss Flannery again, said with a regret she did not feel. "With I could but my aunt's terribly strict—and old fashioned. She wouldn't stand for it."

Ray sniffed. "You poor kid! Well, I guess maybe you'd better stay the way you are as long as you work for old Sourbones Heath. He's a fussybugger, I hear. Looks at me as if I was dirt when I meet him in the elevator. He's a Yale man, my boss says." Ray shook her head as if that accounted for Ernest Heath's strange ways.

"Is he?" asked Susan rather eagerly. "I didn't know that."

"You're a queer one," Ray Flannery remarked, raising her plucked eyebrows. "Why don't you pump Flannery? He'll give you the dirt."

"Pump him?" Susan went scarlet and then smiled. It was no use trying to explain herself to this one. Already Ray was rambling shame to make the Flannery girl's on.

"You won't need to do any pumping when Jack Waring gets back to town. He's a good number. He'll put you wise."

"Jack Waring?" Susan was puzzled. Ray's lips curled into an insinuating sort of smile. "Ye-es, Jack Waring," she mocked. "Heath's assistant. Don't say I didn't warn you!" The two girls had reached the elevator now and wedged tightly into the crowded car. Ray could say no more.

THE following day Susan was initiated into the mysteries of copying a freshly typed letter concerning an important building estimate into the old-fashioned book which Mr. Heath insisted on keeping.

The quiet, rather sulky Pierson showed her how it was done. The cloth must be wrung out just so, the transparent sheet adjusted, the letter slipped into place and blotting papers carefully placed behind it. Then the whole book was swung into the press and an iron screw squeezed down.

The day was to come when Susan could follow this process in her sleep, so like mere child's play it was to become to her, but during this first bewildering and troubled week it seemed a gargantuan labor. Further, she was rendered horribly nervous by the warnings and hints dropped by the lugubrious Pierson.

"The boss is mighty particular about this," he told her heavily. "It has to be done exactly right. The last girl we had here was fired because she gummed up the works proper."

Susan wet her lips nervously and frowned. Strange that at the ultra-modern business school of Mr. Claude Block nothing had been said about that devil machine, the letter press! What the girl did not know was that this invention was an anachronism in the smart and up-to-date office of Ernest Heath. His father had had a letter press and therefore he must have one.

Susan struggled with the monster. She put her whole weight upon the turn of the mammoth iron screw and then timorously slid the book out to survey results.

As she had feared, the cloth had been a shade too damp. The original letter was blurred beyond recognition. After one hour look at it the lugubrious Mr. Pierson, shaking his head with a sorrow too profound for words, turned back to his high stool and his ledgers.

Thus abandoned, Susan began ignominiously to cry. No sound escaped her but the great tears rolled quietly down her cheeks.

No one heeded her. Pierson disappeared into his refuge, the vault, as though washing his hands of a pupil so inept. Just then Susan heard the office door open.

Ashamed to be caught thus, frightened beyond belief thinking Mr. Heath had returned and would at once discharge her, Susan turned to flee.

She heard an unfamiliar voice say, "What's going on here? Pretty girl crying? Then I'm arriving just in time."

The newcomer was a sandy-haired, ruddy-faced man of 30 odd who wore a faultless gray suit and pearl colored spats. He threw his hat on a vacant desk and advanced toward Susan jovially.

"Is this the pretty new secretary? What's up? I'm Jack Waring."

Bonds Of Peoria

Kidnaper Raised

Peoria, Ill., April 5—(UP)—J. W. Betson will have to furnish \$100,000 bond to gain his liberty on the charge of kidnaping Dr. J. W. Parker, Judge Joseph E. Daly ruled today.

Judge Daly heard a motion to reduce bail, set at \$50,000 but instead followed the suggestion of State's Attorney Pratt and doubled the amount.

A vigorous search continues for the place in Tazewell or Mason counties where Dr. Parker was held for 18 days, and for other concerned in the kidnaping.

Poison In Milk

Fatal To Three

Tabor, Minn., April 5—(AP)—A father and two small sons were dead today, victims, the Coroner said, of poison placed in milk by a farmer.

The dead are Resida LaJambe, 35, Wallace, 4, and Robert, 2, whose bodies were found in bed in their home last night.

H. E. Nelson, Polk county Coroner, said it appeared the father gave the boys the poisoned milk, and then drank some himself. Beside his bed was found a bottle containing poison and a farewell note to his wife, Coroner Nelson said no inquest would be held.

Friends asserted the family had been torn by domestic troubles. LaJambe was a cream buyer. His wife had been away several days.

SYMPATHY CARDS

STATE SUPREME COURT STARTED ITS APRIL TERM

Heavy Docket Confronting Justices During Coming Session

Springfield, Ill., April 6.—(UP)—Faced with a heavy docket comprising more than 300 cases, the Illinois State Supreme Court convened here Tuesday for its April term.

Among the cases confronting the high tribunal are four murder convictions, three of which involve capital punishment.

One of them is that of Russell McWilliams, 17, Rockford, who was sentenced to be electrocuted for the murder of William Sayles, Rockford street car motorman, during a holdup.

McWilliams' appeal was brought before the court at the February term when Clarence Darrow, noted criminal lawyer, made an eloquent plea for leniency for the youth who pleaded guilty to the murder charge after waiving a jury trial.

Another capital punishment case is that of Elwood Rose convicted in St. Clair county Circuit Court on a charge of murdering Elbert Manekin during an alleged holdup.

Howard Bonham who was convicted in Cook county on a charge of murdering Paul Tulupan is the third death case on appeal. He is alleged to have killed Tulupan as the latter sat at a counter in a Chicago hotel grill room. No motive for the crime was established.

Boy Appeals Case.
Verner Corry, 15, convicted of a charge of murdering a policeman when the latter ordered him and his brother out of a public school building, also has an appeal before the court. He was sentenced to 18 years imprisonment following his conviction.

Conviction of Leo Brothers, now serving a 14-year sentence in Joliet prison for the slaying of Alfred J. Lingle, Chicago Tribune crime reporter, will again be before the court this term.

The judgment of the lower court was affirmed by the Supreme Court in February but the case is back on a petition for a rehearing. As in the Bonham case, Brothers' conviction was obtained without establishing a motive for the slaying. It has been generally believed that Lingle was murdered because he "knew too much" about gangsters.

Other Big Cases.
In addition to criminal cases numerous others of state wide importance are also on the court's docket. Among them is one involving 57 attorneys who are alleged to have been on payrolls of the Chicago Sanitary District without rendering any service to the district. The Chicago Bar Association seeks to have them disbarred.

Another important case involves Judge Edmund Jarecki of the Cook an appeal from the judgment of County Court which held the 1928 tax assessments lists for the county to be invalid.

The state horse racing law is attacked in an appeal brought by State Senator James O. Monroe, Collinsville, from a judgment of the Madison county Circuit Court, convicting him on a charge of violating the act. He seeks to determine constitutionality of the law.

Liability of bank stockholders is involved in an appeal pending before the court from a judgment of the Marion county Circuit Court. The case involves the number of times bank stock may be assessed because of failure.

The 1927 state gasoline tax is involved in a rehearing petition filed by the Standard Oil Company which seeks to collect taxes paid in January 1928 before the law was declared invalid. The high court at its last term affirmed a judgment of the Sangamon county Circuit Court holding the company could not collect on tax money paid into the State Treasury.

Fatal Fire, Blast At South Omaha

Omaha, Neb., Apr. 6.—(UP)—One man was killed, seven were injured and property damage of between \$300,000 and \$450,000 was done in an explosion and fire which practically demolished the Allied Mills Company plant in South Omaha Tuesday.

Spontaneous combustion in a wheat bin was believed responsible for the blast.

William Wilkers was found dead beneath fallen concrete and machinery.

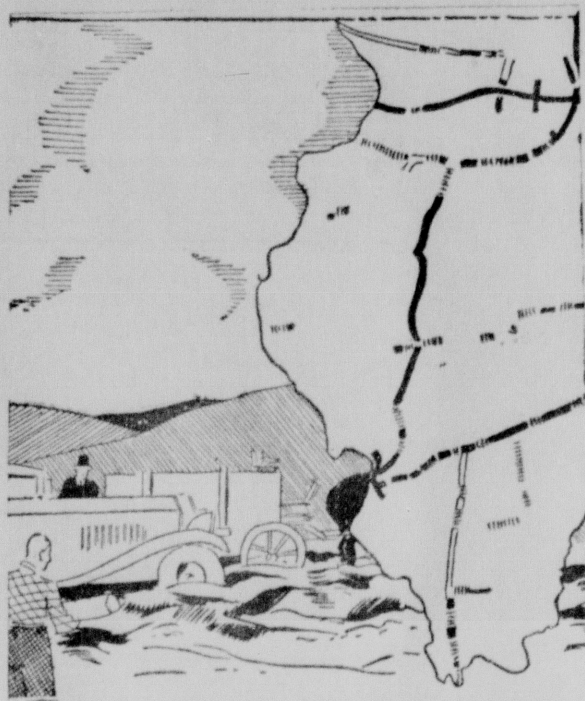

VOTE FOR W. T. RAWLEIGH

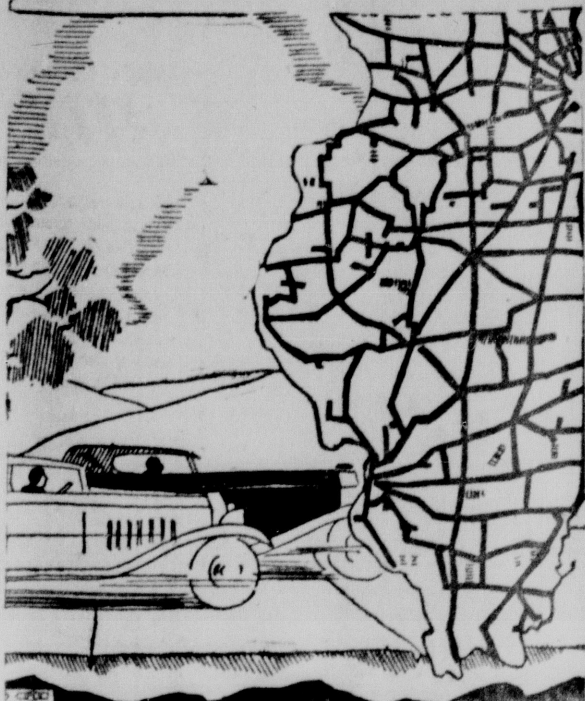

Candidates for Delegate to Republican National Convention Life-long Republican, well-known for disinterested public service. Has been mayor of Freeport, member Illinois Legislature, Presidential Elector for Charles Evans Hughes, Finance Chairman of this district for 1928 Hoover Campaign. Well qualified by long successful record in business, manufacturing, and political life.

PRIMARIES APRIL 12

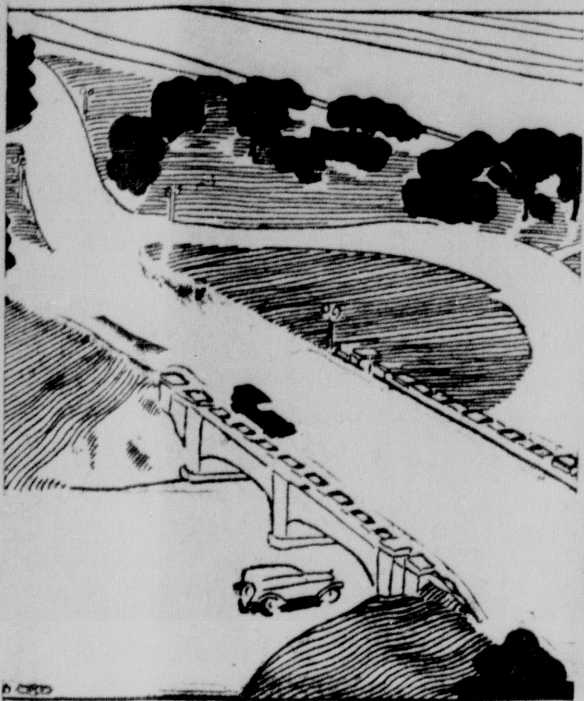

THE STORY OF THE LIFE OF ILLINOIS' POPULAR EX-GOVERNOR — LEN SM ALL

When Len Small became Governor the roads of Illinois were in deplorable condition. He promised that he would "Pull Illinois out of the Mud."

During his administration Illinois built 7,000 miles of hard surfaced pavements at a saving of \$10,000.00 per mile. The state became the best paved state in the Union and the best paved area in the world.

He appointed Park Commissioners in Chicago, who constructed two-way boulevards and safety grade separations.

The finances of the state were economically conducted. During the Small administration the treasury balance increased from 15 million dollars to 40 million dollars. The excellent credit standing of the state enabled the sale of highway and soldiers bonus bonds at a premium.

Did you ever stop to think of EDSON R. WAITE Shawnee, Okla.

Louisville, Ky.—The advertising columns of your newspaper will tell you where you can find splendid values for your money.

Now is the time that the money-hoarders should act, not only for their own good but for the good of the country as well, by taking their hidden currency from hiding places and depositing it in banks and spending and buying with some of it so others may work.

A. S. Thompson, publisher of the Paris, Ky. Kentucky-Citizen, says that his paper is the oldest newspaper in the United States, having been published continuously since 1807.

In order for a city to keep ahead in the March of Progress it must keep wide awake, progressive and alert to every opportunity to advance its interests.

The fact that modern children are better physical specimens than they were even a few years ago is not, we are convinced, due to any cycle or any sudden spurt towards physical perfection which will sink back into the normal, but, on the contrary, it is the logical outcome of better conditions and better methods of diet and exercise, though the actual conditions such as housing and fresh air will be found to be the overwhelming influence. It is astonishing how bad food will nourish and inefficient food fall in ill effect when the other circumstances of the life of a child are favorable to its healthy development.

It's a good idea not to follow fashions. Let the fashions follow you. Direct your income and outgo by your own judgment and not by the customs of foolish people.

Who wants to live in a town that is only about three jumps ahead of the horse? I met a man up in Kansas City the other day from the east. He said his home town is about the size of the New York cemetery, but twice as dead. He sure is a hometown booster!

Business goes where it is invited and stays where it is well treated.

—Chee Buzard.

Despondent, Shot Blind Wife, Self

Odessa, Wis.—(UP)—Death of Sha-Bon Da Shiong, tribal headman for Indians of the Bad River Reservation, added another election to those scheduled this year. It was that of a custodian of the sacred flag of eagle feathers emblem of Sioux-Chippewa wars for the Chequamegon region.

New Canaan, Conn., April 6.—(UP)—Nelson Sillman, prominent business man, shot and killed his blind invalid wife and then took his own life because doctors had told him he was suffering from an incurable disease.

First Photo of Highest Court With It's Newest Member

This is how the members of the highest tribunal in the land appear today. It's the first photograph taken of the United States Supreme Court since the appointment of Benjamin Cardozo (standing, extreme right) of New York as Associate Justice to succeed Oliver Wendell Holmes, retired. Seated, left to right, are Associate Justices Louis Dembitz Brandeis and Willis Van Devanter; Chief Justice Charles Evans Hughes; Associate Justices James Clark McReynolds and George Sutherland. Standing, left to right: Associate Justices Owen J. Roberts, Pierce Butler, Harlan F. Stone, and Cardozo.

Sidelights In News In Capital Of United States

BY UNITED PRESS

Washington, April 6.—(UP)—The Civil War had been over only 16 years when William Tyler Page started his service with the House of Representatives in 1881.

Page was a knee-breeched boy running errands for the bearded Congressmen of that day. Now he is special clerk to the minority, his service since 1919 as Chief Clerk having ended with the recent Republican descent from House power. In his own words, he is "somebody like a college president emeritus."

Page somewhat resembles his friend, the late Speaker "Nick" Longworth—meticulously tailored tail-coat, white-trimmed vest, neat mustache, shiny bald pate. There is something, too, of the Longworth twinkle about his eyes.

Despite his friendship for "Nick," Page regards Thomas B. "Cear" Reed of Maine, and John G. Carlisle of Kentucky as his favorite speakers. The former he admired for his forceful, "might-makes-right" personality; the latter for his scholarship and adeptness as a parliamentarian.

Particularly vivid in Page's memory are the tariff fights in the House. He tells with relish of McKinley's great tariff speech of 2

hours, one of the longest addresses ever allowed in the House. "To refute the claims of an anti-tariff Congressman that a poor man could not buy an all-wool suit for \$10—then a goodly sum of money—McKinley appeared in the well of the House with an all-wool suit accompanied by the bill of sale," he recalls.

"This cost only \$10," McKinley exclaimed, proudly exhibiting the suit. Thereupon a Jewish anti-protectionist from Boston heckled McKinley: "you can't buy a suit like that in my establishment for \$10." "Oh, no," said McKinley, and he read the bill of sale which showed that the suit had been bought at the Jewish Congressman's store for a \$10 bill.

"The House was full of Civil War veterans in 1881 and immediately thereafter," Page recalls. "You couldn't throw a stone without hitting a General or Colonel. And there was one old fellow who removed his wooden leg when he waxed hot in debate and brandished it about. The floor was crowded with empty sleeves, crutches and the like."

The news of McKinley's assassination reached Page while he and a party of Congressmen and newspapermen were visiting a French battleship off a small Canadian port.

One of the Congressmen said: "It's a sad thing, boys, to lose our beloved President, but it's worse to think that old blankety blank Roosevelt is going to the White House."

This irreverent fellow, Page relates, later became a Cabinet member, a bosom friend of Teddy's and a member of his "tennis" cabinet. Still later he became a Supreme Court Justice.

"He blushed every time he saw me thereafter," Page chuckles.
